Dear Ms Mohale

**ACCEPTANCE OF THE REVISED RESEARCH PROPOSAL**

Thank you for submitting your revised research proposal. Dr L de Villiers and Mrs L Monareng submitted your proposal to the Departmental Research and Ethics Committee. Your research proposal has been accepted and you may now continue with chapter 1 of your dissertation. It may be a good idea to start with an in-depth literature review. The literature review will enable you to give in-depth explanations in chapter 1. Your work currently lacks a coherent argument and the literature review will help you to build such an argument. The literature review will also enable you to start writing chapter 2.

Good luck with your research. Our contact details are as follows:

Dr L de Villiers:           Tel 012 429 6770           E-mail: [dvill@unisa.ac.za](mailto:dvill@unisa.ac.za)

Ms L Monareng:           Tel 012 429 6059           E-mail: [monarlv@unisa.ac.za](mailto:monarlv@unisa.ac.za)

Yours sincerely

**DR L DE VILLIERS**

**MRS L MONARENG**

Re: Application to conduct a research study

I am currently studying for the Masters Degree in Nursing (MA Cur) with the University of South Africa; and I am expected to conduct a research study as a requirement for the degree. May I therefore, request your permission to conduct this study in Greater Tzaneen sub-district (Mopani district).

The topic for my research is: “*Integrated primary health care: The role of the registered nurse*”

This is a quantitative, descriptive study as it involves the use of a structured questionnaire to collect data about the perceptions of registered nurses and nurse managers regarding the role of the registered nurse in integrated primary health care. The areas where this study will be focused are all clinics and community health centres where nurses provide integrated primary health care.

Thanking you in anticipation.

Yours truly,

Mohale Mpho Dorothy, Professional Nurse

**ANNEXURE E****QUESTIONNAIRE COVERING LETTER (for registered nurses)**

Dear Colleague,

I am currently registered with the University of South Africa for the Masters Degree in Nursing Science (MA Cur). I am undertaking a research study on:

***Integrated primary health care: The role of the registered nurse.***

You have been selected to participate in this study. Your participation is important because the information obtained may be used to make recommendations, that could lead to personnel development programmes to prepare you for, or update you on, your expected role in integrated primary health care delivery. There are no payments for participating in this study. Participation is voluntary.

You are requested to complete the questionnaire by marking the appropriate box with an X, to indicate the extent to which you agree with the statements. Anonymity will be maintained, and all collected data will be held in strict confidentiality. This means that your name will not be on the questionnaire, only a number will appear for administration purposes. Only the researcher and those who assist will have access to the information you provide.

Thank you very much for your co-operation.

Yours Sincerely,

Mohale Mpho Dorothy

**ANNEXURE F****QUESTIONNAIRE COVERING LETTER (for nurse managers)**

Dear Colleague,

I am currently registered with the University of South Africa for the Masters Degree in Nursing Science (MA Cur). I am undertaking a research study on:

***Integrated primary health care: The role of the registered nurse.***

You have been selected to participate in this study. Your participation is important because the information obtained may be used to make recommendations, that could lead to personnel development programmes for registered nurses on their expected role in integrated primary health care delivery. There are no payments for participating in this study. Participation is voluntary.

You are requested to complete the questionnaire by marking the appropriate box with an X, to indicate the extent to which you agree with the statements. ## QUESTIONNAIRES

**QUESTIONNAIRE: REGISTERED NURSES WORKING IN INTEGRATED  
PRIMARY HEALTH CARE SETTINGS**

**Indicate the extent to which you agree with the following statements by marking the appropriate box with an X**

## SECTION A

		Strongly agree 4	Agree 3	Disagree 2	Strongly disagree 1	FOR OFFICE USE	
	<b>From your experience, in integrated primary health care practice, registered nurses:</b>						
1	participate in feeding programmes					A1	
2	render preventive health care					A2	
3	render screening services					A3	
4	provide voluntary testing and counselling (VTC) services					A4	
5	participate in mother to child transmission (MCT) programmes					A5	
6	conduct health assessments					A6	
7	treat minor ailments					A7	
8	treat acute health problems					A8	
9	treat chronic health problems					A9	
10	treat sexually transmitted diseases					A10	
11	participate in termination of pregnancies					A11	
12	render rehabilitative care					A12	
13	render palliative care					A13	
14	participate in home care programmes					A14	
15	manage communicable diseases					A15	
16	render prenatal care					A16	
17	render perinatal care					A17	
18	render postnatal care					A18	
19	render reproductive care					A19	
20	render mother and child care					A20	
21	render school health care					A21	

22	meet the health needs of adolescents				
23	render geriatric health care				
24	meet the physical needs of clients				
25	meet the psychological needs of clients				
26	meet the mental health needs of clients				
27	meet the social needs of clients				
28	meet the spiritual needs of clients				
29	render care to individuals				
30	render care to families				
31	render occupational health care				
32	render care to specific interest groups				
33	prescribe medication				
34	dispense medication

## SECTION C

		Strongly agree 4	Agree 3	Disagree 2	Strongly disagree 1	FOR OFFICE USE	
	<b>From your experience, in integrated primary health care practice, registered nurses:</b>						
1	coordinate the services rendered by the multidisciplinary team					C1	
2	liaise with protective services					C2	
3	liaise with teachers					C3	
4	liaise with social workers					C4	
5	liaise with social security officers					C5	
6	liaise with civic committees					C6	
7	liaise with health committees					C7	
8	liaise with NGO's					C8	
9	refer clients to other appropriate primary health care professionals					C9	
10	refer clients to appropriate health services not provided at primary health care level					C10	
11	participate in clinic committee meetings					C11	
12	coordinate community initiatives to address economic issues that affect health					C12	
13	coordinate community initiatives to address environmental issues that affect health					C13	
14	coordinate community initiatives to address social issues that affect health					C14	
15	mobilise communities to campaign for a better health care dispensation					C15	
16	assist communities in managing self-help projects					C16	
17	secure collaboration with community leaders on health					C17	
18	negotiate on behalf of clients, to ensure that they obtain appropriate care					C18	
19	empower communities to take responsibility for their own health					C19	
20	empower communities to independently seek appropriate health care					C20	

**SECTION D**

		<b>Strongly agree 4</b>	<b>Agree 3</b>	<b>Disagree 2</b>	<b>Strongly disagree 1</b>	<b>FOR OFFICE USE</b>	
	<b>From your experience, in integrated primary health care practice, registered nurses manage health services by:</b>						
1	conducting health surveys					<b>D1</b>	
2	designing local policies in collaboration with stakeholders					<b>D2</b>	
3	planning health services at local level					<b>D3</b>	
4	developing operational plans for care delivery at local level					<b>D4</b>	
5	participating in planning of health services at district level					<b>D5</b>	
6	overseeing the implementation of policies					<b>D6</b>	
7	overseeing the implementation of procedures					<b>D7</b>	
8	managing community health promotion programmes					<b>D8</b>	
9	compiling a budget					<b>D9</b>	
10	ensuring optimal use of financial resources					<b>D10</b>	
11	ensuring effective utilisation of human resources					<b>D11</b>	
12	ensuring effective utilisation of material resources					<b>D12</b>	
13	conducting stock management of medicine supplies					<b>D13</b>	
14	maintaining stock records of medicines					<b>D14</b>	
15	ensuring the upkeep of physical resources (eg buildings)					<b>D15</b>	
16	delegating functions appropriately					<b>D16</b>	
17	supervising staff					<b>D17</b>	
18	conducting performance appraisals					<b>D18</b>	
19	disseminating information pertaining to health care to staff members					<b>D19</b>	
20	designing quality control strategies					<b>D20</b>	
21	implementing quality control strategies					<b>D21</b>	
22	ensuring accurate record keeping of services rendered					<b>D22</b>	
23	compiling statistical reports					<b>D23</b>	

**SECTION E**

		<b>Strongly agree 4</b>	<b>Agree 3</b>	<b>Disagree 2</b>	<b>Strongly disagree 1</b>	<b>FOR OFFICE USE</b>	
	<b>From your experience, in integrated primary health care practice, registered nurses:</b>						
1	provide clinical accompaniment to students					<b>E1</b>	
2	assess the learning needs of students					<b>E2</b>	
3	assess the learning needs of primary health care staff					<b>E3</b>	
4	assess the learning needs of community interest groups					<b>E4</b>	
5	assess the learning needs of traditional healers					<b>E5</b>	
6	assess the learning needs of lay care givers					<b>E6</b>	
7	provide clinical accompaniment to students					<b>E7</b>	
8	render in-service education to primary health care staff					<b>E8</b>	
9	render training to traditional healers					<b>E9</b>
