Request Literature Search
Help

Please read before requesting a literature search

This form may be used only to request a *literature search* and not to request books for loan or copies of articles, etc.

It is important to submit your request well in advance of your deadline because we receive a large volume of requests. While you are waiting for your search to be delivered to you, it is a good idea to carry out a Quick Search on [Encore](#) so that you can start reading.

Before completing the form you may find it helpful to consult the Library's online **dictionaries, encyclopedias or Wikipedia** in order to find additional useful keywords for your topic.

Once you have completed the form and submitted the request, you will receive an automated sms and/ or email informing you of your request reference number. Please contact lib-search@unisa.ac.za if you do not receive the sms and/ or email.

Should you need to contact us at lib-search@unisa.ac.za, for example, if you wish to cancel your request, please quote your request reference number.

If you encounter any difficulty in completing the request form please let us know at lib-search@unisa.ac.za, and include your full name, staff or student number and a contact telephone number.
