Appendix 3

An interview guide for the house owners
The interview is confidential and for the research purposes only.
Both positive and negative points of views are required.

Answer the questions below by deliberating further on them.

Water wastage is an ongoing problem in the Saulspoort region.

How is water being wasted and for what reasons does this happen? What importance do you attach to water? How does this affect the way you use water? How would you go about bringing the water wastage to an end if you were given this responsibility?
