Dear Manivate

As the enclosed note will show I gave your request prompt attention, and was prepared to send a boy to you yesterday, but the Kemana authorities were busy with the Education Commission. I sent a note to Mr Thomas this morning and did not get the reply. I really do not know what is the matter! The other part of your request is o.k. Your boy will pass by Mr Thomas to ask for same.

Greetings,

Yours E. A. Tatula

P.S. I have 29 girls in my school and these need very great improvements. especially in "Wayfaring" E.N.

Dear sir,

Will you please help by giving me information of the Character and qualifications of Meriam Mabulele of Valdezia. (Wayfaring included).

She has been in your School, and claimes to have passed Std. V.

I wish her to come and help teaching 2nd. & 3rd year classes down here. She will have to take needle-work as her manual work.

She agrees to be paid 10/ per month.

If you think her not fit; please, try to get me another one. She should begin teaching at the opening of this Term.

Thanks for your prompt attention.

Yours sincerely,
E. Nkondo.

Dear Sir,

It is great pleasure to pen that way although the distance between us is, I may venture, deadly. Concerning life, I am worried, to a very little extent though, by nose bleeding because of the heat, ~~Sesi mi ri tivisaha sona~~; and would be glad to hear your procedure of life up there. Christoph left teaching from the end of sept., and went home for injection against fever. Up to this day he has not yet been allowed to return. I feel pity for him; fever worries him much.

Concerning my school, I, plus the authorities, see improvements great. They have put at my disposal, £21-10^{s}; to buy school material. We are working at a big garden for seed worth 12/-6^{d}, breaking part of the hospital to make the second class room, sports-ground - very beautiful - etc. The school runs 75 and very good attendance - very encouraging! I can speak Thivenda now. At first it was my stumbling block. I had put, in my application letter - Path finding, & on my arrival, I began

it. For some weeks it continued and I had 41 boys from the end of Sept. (last 2 weeks or so) to the 3rd day of Oktober when I was told by the superintendant to stop because their Headquarters my dislike it. Now with shame I notify you, sir. It pains very much because the boys liked it and attended nicely, quickly knew the games and drill. Sorry, but I can't help it, sir.

If you remember, this school, on my arrival had 28, now it has 75, far bigger than Vondwe in both enrolment and attendance.

These pupils could not and would never sing. To manage that I gave them a few home songs and took them for a concert and we got some money. When I told the Whites about it, and as they had told me that these pupils would never sing, they asked me to make them sing all the songs. At the end he (superintendant) gave that £21 "10s I mentioned, and a brown, striped new suit for a present. I nkateko wo kala ngopfu leši ndi ši vonisaka šona. No khensa ka šona andi khelwi ši ringene!!

I was needed by Rev. Drecher to fill up the second post where the teacher is sacked for lashing the evangelist, but said I couldn't because of your promise, Wa le ka nwamitwa ndi te va yimanyana. Ši ryyyini kwalego? My answers depend on yours, sir. I would be glad if urgent. Ngopfu Ndi rhungula ngopfu hikuva yo kwalego. Salan. Ndi mi rhungula ngopfu!

Yours faithfully,
Edwin Gr. Mafeza.

My Dear Mr Marivate

You will be surprised finding my letter today; for I never wrote you since I left Soutpansberg.

I was very sorry to learn that you were here on October last; but failed from seeing you.

The greatest thing I was very pleased to learn that Johannes is in Valdezia and you are keeping him. Therefore I beg to thank you and hope that he is also a good boy.

As for sickness which attacked I and him, God aught to be praised.

I am now teaching at Hamanskraal rebuilding Mr Shibambi's ruin. I have a total of 31 pupils and hope that the school will soon have 50 children.

I am arranging to write to readers of the Bulletin about Steel works, but it will be a long story.

Best wishes to Johannes
and all the Valdezians

Yours truly T. M. Masuluke

My J. C. Course have been esctended to the end of this year. I hope I will succeed I failed from taking it on account of disease.

I found chemistry to be interesting, and I thank the Lord who gave me chance in getting at Izsor (Steel Works) where I studied things as they are.

Dear Mr. Marriott,

Owing to the fact that I have no bicycle I cannot send you any news I even wondered when Elsie told me he was there Yesterday & other days.

I was very sorry to learn of the narrow escape and great damage of property that you recently experienced. Works of Nature are wonderful indeed. I cannot help sympathising with you & the family at such a painful experience.

There is no Joint Council today because of the officials of the Joint C. who are attending the funeral of Dr Cornes at Pietermaritzburg. I needed that book "Olden Times in Zululand" just for a short while and I asked my wife to return it back to you. as Mr Tati said you were still reading it. Excuse me for the inconvenience.

Dr Cook & Mr Mbele arrived here on Monday afternoon and left on Thursday

what "disclosures" + "untellables". I was pleased to learn that he has found out his friends "sly methods" and that he is so Nationalistic.

We spent many happy hours together On Tuesday they went to Sentinuula Wednesday - Messina + Thursday they left.

I have had my first experience of what practical teaching means here at Lemana. The system needs some overhauling but it is a question if such will be possible with such people who are not receptive to changes + who are so narrow in their outlook.

We have also been discussing the question of St VII for our school and there is a likelihood of St asking it somewhere in the middle of the year.

I shall be pleased to see you at the meeting tomorrow

~~with~~ I am also very thankful for the Calendar + other letters which you wrote me from time to time

Even yours Sincerely

Mr

D. C. Marivate
