2.2.1 Activity

2.2.2 Interaction

2.2.3 Sentiment

2.2.4 Norms

2.2.5 Social system

2.2.5.1 External system

2.2.5.2 Internal system

2.3 SUPPORT GROUP PROCESSES

2.3.1 Health talk about hypertension

2.3.1.1 Definition of hypertension, causes and signs and symptoms

2.3.1.2 Management of hypertension

2.3.1.3 Prevention of hypertension

2.3.1.4 Complications of hypertension

2.3.1.5 Sharing experiences, moral support and peer counselling

2.3.2 Interaction within the hypertension support group

2.3.2.1 Patterns and factors that influence interaction

2.3.3 Norms of the hypertension support group

2.3.4 Hypertension support group members’ sentiments

2.3.4.1 Factors contributing to increased in group cohesion

2.3.4.2 Factors contributing to decreased in group cohesion

2.3.5 Support group as a social system

2.3.5.1 External system

2.3.5.2 Internal system

2.3.6 Conceptual framework for hypertension support group
4.2.6 Taking hypertension medication................................................................. 70
4.2.7 Duration of hypertension support group attendance by respondents.......... 71
4.2.8 Attendance of hypertension support group.................................................. 72

4.3 SECTION B: HEALTH EDUCATION.......................................................... 72

4.3.1 Item 1: Advised on low salt intake.............................................................. 74
4.3.2 Item 2: Advised to limit alcohol intake......................................................... 74
4.3.3 Item 3: Advised to quit smoking................................................................. 74
4.3.4 Item 4: Advised to do exercises................................................................. 74
4.3.5 Item 5: Advised about stress management................................................. 75

4.4 SECTION C: STRENGTHS OF THE HYPERTENSION SUPPORT GROUP...... 75

4.4.1 Item 1: Support session has objectives....................................................... 76
4.4.2 Item 2: Rules that regulate support groups.................................................. 77
4.4.3 Item 3: Feel welcomed into the support group............................................ 77
4.4.4 Item 4: Acceptance of one another as members in the support group........... 77
4.4.5 Item 5: Moral support within the support group........................................... 77
4.4.6 Item 6: Sharing life experiences within the support group........................... 78
4.4.7 Item 7: Receiving peer counselling within the support group...................... 78
4.4.8 Item 8: Information on side effects of different hypertension tablets............ 78
4.4.9 Item 9: Advised to take medication daily.................................................. 79
4.4.10 Item 10: Medication after blood pressure levels measuring....................... 79
4.4.11 Item 11: Appointment cards issued....................................................... 79

4.5 SECTION D: WEAKNESSES OF THE HYPERTENSION SUPPORT GROUP..... 79

4.5.1 Item 1: Distance of the clinic................................................................. 80
4.5.2 Item 2: Length of queues..................................................................... 81
4.5.3 Item 3: Understandable language use…………………………………………….. 81
4.5.4 Item 4: Meaningfulness of health education……………………………………….. 81
4.5.5 Item 5: Experiences are not discussed out of the support group………………….. 82
4.5.6 Item 6: Unresolved conflicts within the support group…………………………… 82
4.5.7 Item 7: Domination within the support group……………………………………... 82
4.5.8 Item 8: Information on signs and symptoms of hypertension is enough………….. 83
4.5.9 Item 9: Information on how to manage hypertension at home is enough……….. 83
4.5.10 Item 10: Information on what to do should complications occur………………... 83
4.5.11 Item 11: Taking responsibility for our own health………………………………. 83
4.5.12 Item 12: Sharing experiences, fears and ideas with support group members….. 84
4.5.13 Item 13: Sense of belonging to support group…………………………………. 84
4.5.14 Item 14: Atmosphere within the support group is empathetic………………….. 84
4.6 SECTION E: CLINIC AS A MEETING POINT FOR THE SUPPORT GROUP…… 84
4.6.1 Item 1: Abstaining from work on planned dates…………………………………... 86
4.6.2 Item 2: Suitability of scheduled time……………………………………………… 86
4.6.3 Item 3: Transport problems…… ................................................................. 87
4.6.4 Item 4: User-friendliness of the clinic venue…………………………………….. 87
4.6.5 Item 5: Chairs in the clinic………………………………………………………… 87
4.6.6 Item 6: Length of the support group ……………………………………….... 88
4.6.7 Item 7: Attendance of the support group………………………………………. 88
4.6.8 Item 8: Good relationship with one another……………………………………. 88
4.6.9 Item 9: Learn from each other as support group members………………………... 89
4.6.10 Item 10: Family support………………………………………………………… 89
4.6.11 Item 11: Participation of members……………………………………………… 89
4.6.12 Item 12: Respecting other members’ feelings and opinions……………….. 90
4.6.13 Item 13: Liking members in the support group…………………………… 90

4.7 SECTION F: ATTRIBUTES OF THE NURSE AS A GROUP FACILITATOR…… 90
4.7.1 Item 1: Approachability of the nurse ………………………………………… 92
4.7.2 Item 2: Nurses’ support………………………………………………………… 92
4.7.3 Item 3: New members orientation…………………………………………… 92
4.7.4 Item 4: Overcoming the hypertension stigma………………………………… 92
4.7.5 Item 5: Motivation to attend the support group…………………………….. 93
4.7.6 Item 6: Answering questions…………………………………………………… 93
4.7.7 Item 7: Respect for various cultures and beliefs…………………………….. 93
4.7.8 Item 8: Support group interaction guidance …………………………………. 94
4.7.9 Item 9: Dealing with barriers to communication…………………………….. 94
4.7.10 Item 10: Confidentiality within the support group……………………….. 95
4.7.11 Item 11: Active participation of group members…………………………… 95
4.7.12 Item 12: Promoting patients’ empowerment and autonomy……………… 95
4.7.13 Item 13: Increasing patients’ knowledge…………………………………… 95

4.8 GENERAL PICTURE OF ALL THE SECTIONS……………………………………… 96
4.8.1 Means split for gender by different sections…………………………………… 96

4.9 CONCLUSION……………………………………………………………………….. 97

5. CHAPTER 5……………………………………………………………………………… 98
CONCLUSIONS, LIMITATIONS AND RECOMMENDATIONS…………………….. 98
5.1 INTRODUCTION…………………………………………………………………… 98
5.2 CONCLUSIONS……………………………………………………………………… 98
5.3 LIMITATIONS ……………………………………………………………………….. 101
5.4 RECOMMENDATIONS .................................................................................. 101
5.4.1 Improving the hypertension support group............................................. 102
5.4.2 Further studies.......................................................................................... 102
5.5 CONCLUSION............................................................................................. 103
LIST OF SOURCES............................................................................................ 104
LIST OF TABLES

Table 3.1: A stratified random sample according to geographic area and size........ 50
Table 4.1: Sections of the questionnaire.......................................................... 63
Table 4.2: Clinics where hypertensive patients received their hypertension management................................................................. 65
Table 4.3: Respondents’ perceptions with regard to lifestyle health education within the hypertension support group............................................. 73
Table 4.4: Respondents’ perceptions with regard to strengths of the hypertension support group................................................................. 76
Table 4.5: Respondents’ perceptions with regard to weaknesses of the hypertension support group................................................................. 80
Table 4.6: Respondents’ perceptions of the clinic as a meeting point................. 85
Table 4.7: Respondents’ perceptions on attributes of the nurse as the support group facilitator................................................................. 91
LIST OF FIGURES

Figure 2.1: Homan’s Interaction Conceptual Framework…………………………... 33
Figure 3.1: West Rand District Municipality map ………………………………… 47
Figure 4.1: Clinic frequencies………………………………………………………. 66
Figure 4.2: Gender of the respondents……………………………………………… 67
Figure 4.3: Age distribution of the respondents…………………………………….. 68
Figure 4.4: Employment status of the respondents…………………………………. 69
Figure 4.5: Type of hypertension management…………………………………….. 69
Figure 4.6: Taking hypertension medication……………………………………….. 70
Figure 4.7: Duration of hypertension support group attendance…………………. 71
