ADDENDUM B
INFORMATION AND AGREEMENT LETTER TO CARETAKERS
OF CHILDREN JOINING THE PILOT STUDY
Dear Parent / Caretaker

Herewith I want to thank you for including your child in the programme presented by me this term. I will try my best to make this an enjoyable learning experience.

This programme has as its goal the strengthening of your child’s emotional intelligence. Based on the CAS test done in 2004, your child’s planning processes was a little weaker than what it should be for effective support of other thinking processes. Planning processes are closely linked to emotional intelligence as it incorporates the skills necessary for good emotional intelligence.

The following are the basic themes, which will be covered in the programme:

- Awareness of self and emotions – self-knowledge
- Being responsible and in control of emotions and thoughts
- Expressing feelings using the right vocabulary
- A good relationship with other people
- Understanding self as ‘n whole – feelings, thoughts, body
- Being flexible – also accepting different opinions
- Having a goal / purpose in life
- Being motivated, enthusiastic and positive
- Courage and energy to be what he/she wants – not to give up when failing
- We choose happiness

The programme will be presented over 12 weeks to be able to cover the necessary themes. Follow-up programmes might be available if necessary. No sessions will be held during school holidays.

The first two sessions will be spent on an introduction to the programme and group members as well as determining the child’s personality / behaviour and learning style.
Furthermore we will videotape one or more of the sessions for the sake of study and research. The information on these videotapes will be treated confidentially. No-one will have access to this, accept for the Centre for Play Therapy in Wellington, South Africa. Your child will thus participate in the pilot study of a final intervention programme to increase emotional intelligence of primary school children in a culturally sensitive way, using Gestalt play therapy techniques.

Please complete the slip at the bottom of this letter and return this with your child to the next session, indicating whether you are willing to engage your child in this programme.

Sessions will be one hour long. It will start exactly at ……to be able to fit the programme goals and also to fit in with the rest of the afternoon programmes of the children. Please bring your child on time and pick him/her up at …… again. We can unfortunately not promise safe care for your child before or after the sessions as the practice also accommodate other therapists and clients.

I sincerely hope that we will have an enjoyable and effective programme. You will receive an information slip each week, with the theme for the week and the date of the next session.

Yours sincerely.

Herewith I, ________________________________, parent of ________________________________, give my permission that this child may be included on a videotaped session/s for research / study purposes and be part of a pilot study for the final research programme.
