

## APPENDIX 3 ENVIRONMENTAL CONCERN MEASUREMENT SCALE

The initial pool of statements is presented below, and any modifications through the initial evaluation and assessment by experts are indicated. This item pool is presented in the English language only, although similar modifications were carried out on the other-language questionnaires. The 116-item questionnaire, used as input to the evaluation by experts, is presented in the English, Afrikaans, Xhosa, Zulu and Sesotho languages. Refer to the description of "NO." below to identify the 32 items used for the main study.

### **ITEM POOL AND MODIFICATIONS**

- NO. initial/final number of the statement in the scale  
(the final number, if present, is indicated in bold type)
- SSC subscale: (i) ecocentric (**eco**)  
(ii) anthropocentric (**ant**)
- CAT category: (i) air, land and water (**alw**)  
(**alw** includes general environmental)  
(ii) non-human life (**nhl**)
- P/N positively- (**p**) or negatively- (**n**) scored statement
- IND indicator: \* - added after preliminary study  
@ - modified after preliminary study  
(final form shown)
- # - deleted after evaluation by experts
