Dear Sir

PERMISSION TO CONDUCT RESEARCH FOR A MASTER DEGREE IN CLINICAL NURSING SCIENCE.

I hereby request permission to collect study on the above-mentioned topic. I am an M.Cur student at the University of South Africa (UNISA).

**Purpose of the study**
The purpose of the study is to describe the risk factors contributing to the increase of CHD among the Indian population of Kwa Zulu-Natal in order to contribute to culture-congruent preventive and health modification strategies.

The data will be collected by means of a structured questionnaire. It will take about thirty (30) minutes to complete the questionnaire. Participants will complete the questionnaire at their own leisure.

The researcher will distribute and collect completed questionnaire in sealed envelopes which would have been provided.

Confidentiality, anonymity of the participants will be ensured. Questionnaires will not be linked to the individual’s identity.

Participation is voluntary.

Your permission and professional support will be highly appreciated.

Yours faithfully

B. Vardhan (Miss)
