

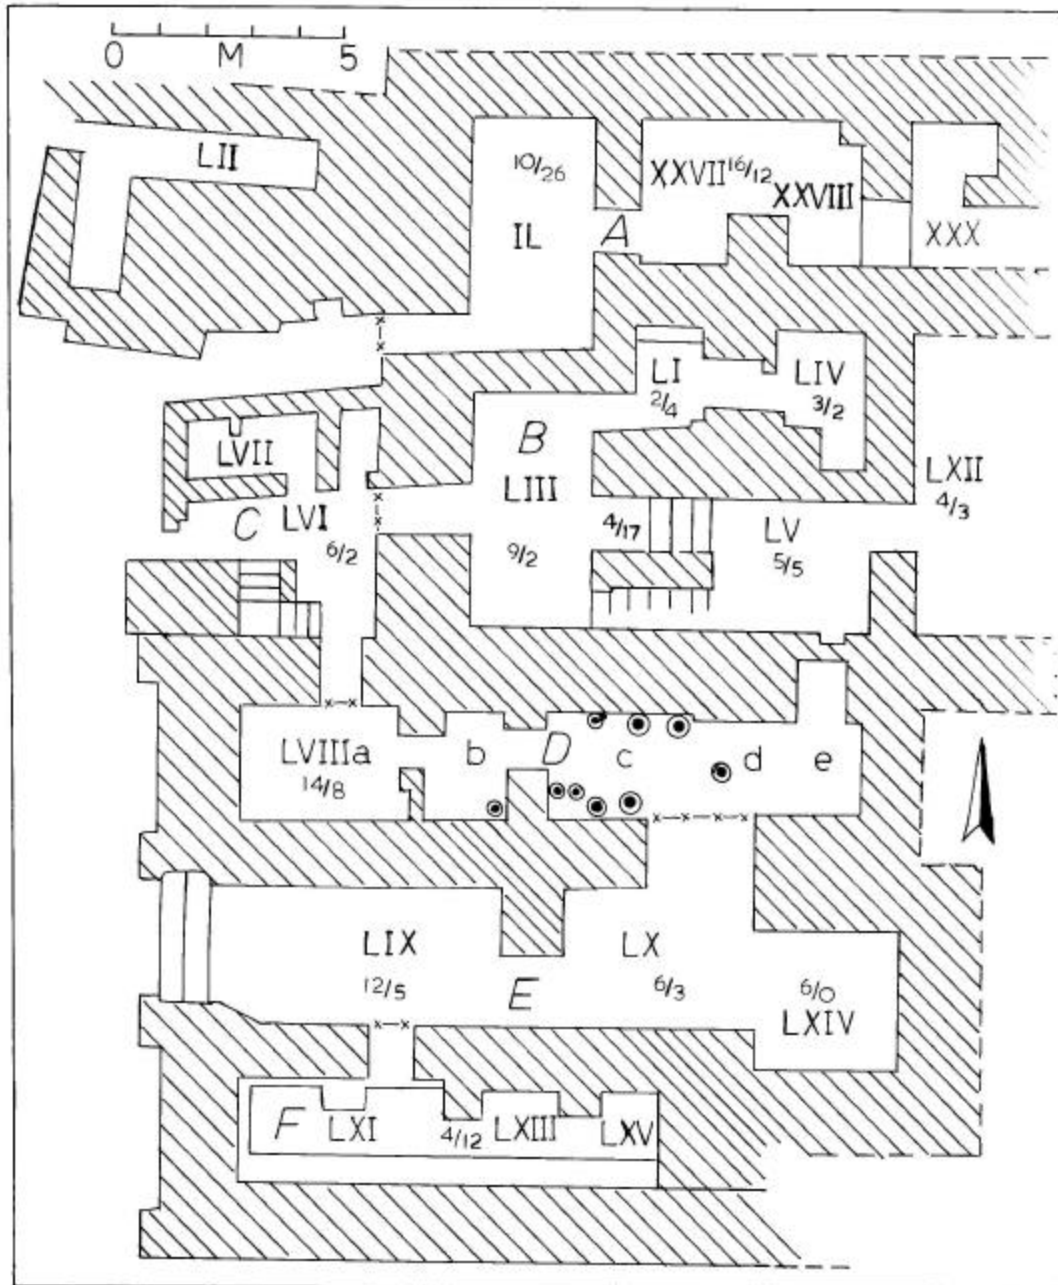

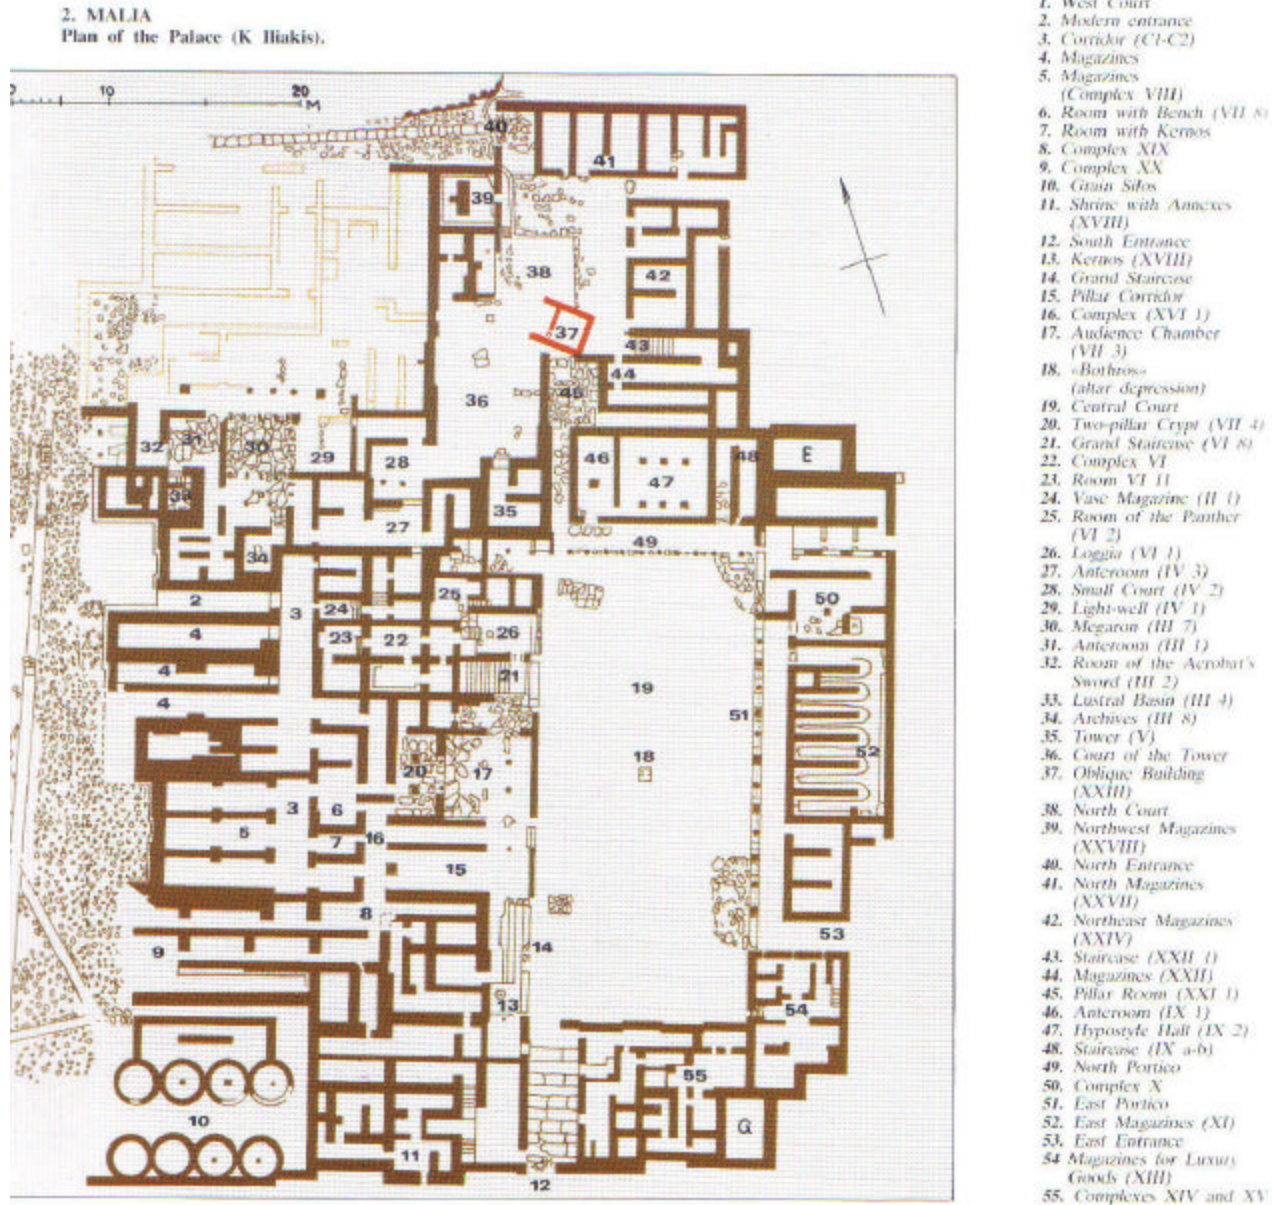

Plate 10 - Floor Plan of Protopalatial Phaistos

“The large letters A-F indicate the architectural units into which the structure is divided. The Roman numerals indicate the excavator’s room numbers. The fractions in each room show the room’s site as a % of the whole structure., and the amount of pottery vessels found in it as a % of total corpus from the first palace. Thus Room IL, is 10% of palace area and contained 26% of its pottery.”

From Branigan: 1987, 246.

Plate 12 - Floor Plan of the Palace of Mallia

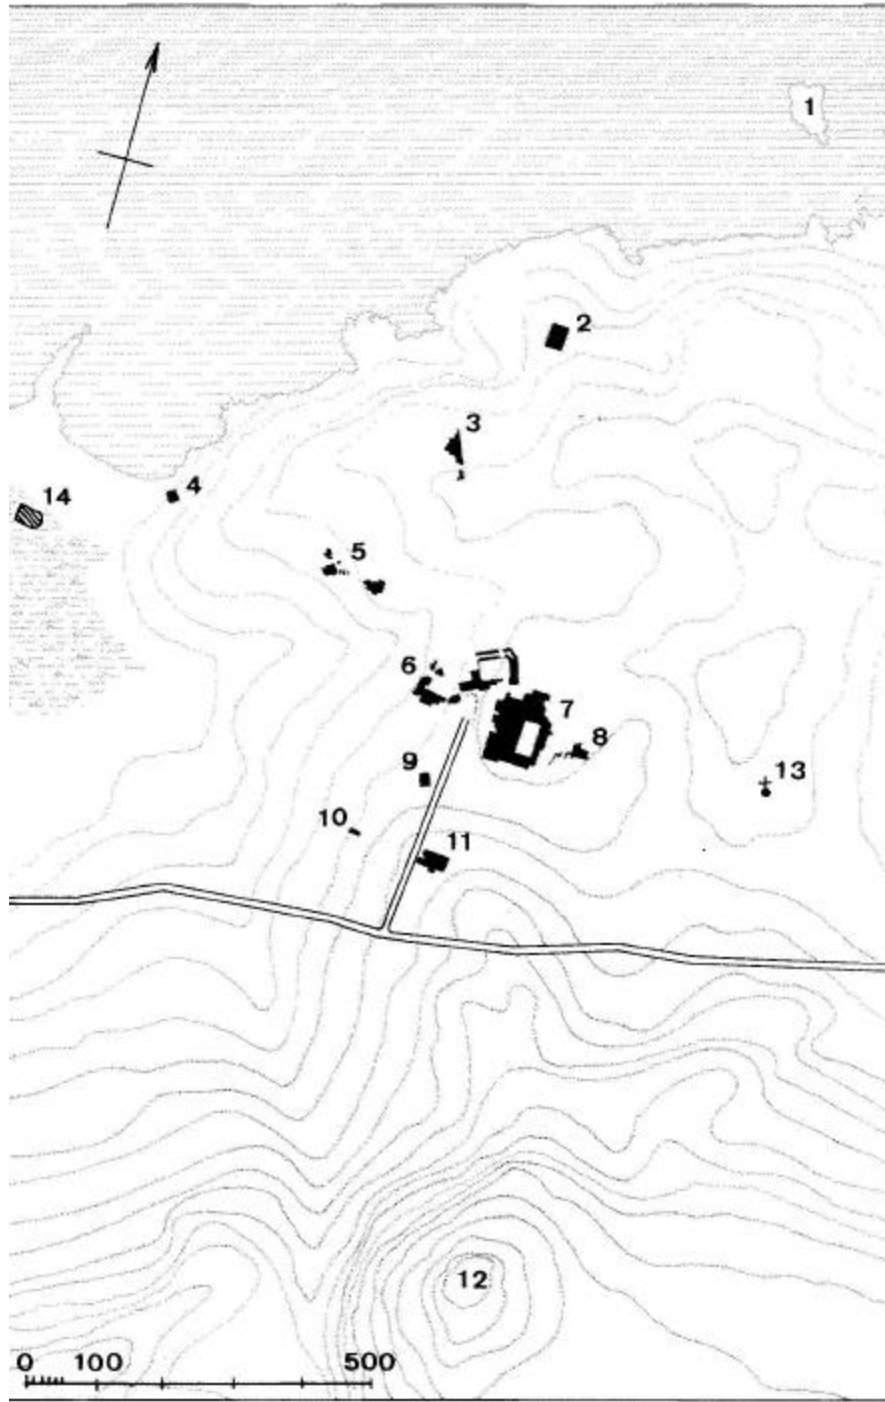

(From Davaras: 8)

Plate 13 - Mallia and Surrounding Settlements
