

- I enjoyed working on myself.
- Through these tests I was able to recognize the mistakes and do the corrections.
- I have learned a lot of things which add up to my general knowledge.
- I have improved my writing but it is not yet perfect.

* The topics were very interesting and they contained a lot of information.

* I enjoyed working alone because in that way I can improve my reading skills, vocabulary and grammar.

* I preferred reading alone and the tests were interesting. I also learned to learn and learn.

I read them alone because they were fun and understandable as most of them were subjects on physics and chemistry.

1. I enjoyed all the compositions.

2. I learned a lot from these compositions.

3. I feel happy reading the compositions alone.
