Current Employment: Organisation: ICAS Johannesburg(November 2005 – current)

I am the Head of the Business Intelligence (BI) Unit. Current functions include management of BI team; accurate and detailed reporting to client companies on Behavioural Risk Management problem profiles; ongoing training and development of various role-players within the company (including psychologists and lawyers); ongoing research and intervention development of strategies in areas of psychological and behavioural risk factors and the impact on the organisation.

The Military Psychological Institute (MPI): Pretoria 2002 – October 2005

A psychologist in the Assessment Centre of MPI focusing on specialised domains of selections within the Defence Force environment, and research and development of abnormal psychology screening instruments. Was actively involved in

- psychotherapy sessions at 1 Military Hospital for psychiatric patients, training of clinical interns

- active national deployments for specialised selections (including behaviour observations in all environs, such as intensive selections in the 'bush'; naval dockyards, helicopter hangars, and office settings),
- job profiling and developing assessment and selection protocols,
- facilitation, education and training of diverse personnel on all areas of human behaviour,
- organisational diagnosis and assessment.
- team buildings and group assimilations,
- standard psychometric assessments,
- career assessments,
- training of the industrial intern psychologists into the specifics of the psychiatric system and the subsequent effects on the organisation.
- development of screening instruments for determining risk factors for psychological health

Private Practice

I began my private practice in Johannesburg in February 2002 on a part-time basis. Currently practising in Johannesburg and Pretoria. I see a wide variety of clientele and do individual, family and couple therapy.

Previous Work Experience:

My working background is diverse, and includes working in the private business sector of the building industry, to the foundation of a Non-Profit Crisis Intervention Counselling Organisation.
