

Chapter 1

Orientation to the research

1.1	INTRODUCTION	1
1.2	BACKGROUND TO AND MOTIVATION FOR THE STUDY	1
1.3	STATEMENT OF THE PROBLEM	5
1.4	RESEARCH QUESTION	7
1.5	PURPOSE OF THE STUDY	7
1.6	PARADIGMATIC PERSPECTIVE	7
1.7	DEFINITION OF TERMS	8
1.8	RESEARCH DESIGN	10
1.9	RESEARCH METHODOLOGY	10
1.9.1	Population and sampling	10
1.9.2	Data collection	11
1.9.3	Data analysis	11
1.10	OUTLINE OF THE STUDY	11
1.11	CONCLUSION	12

Chapter 2

Research design and methodology and measures to ensure trustworthiness

2.1	INTRODUCTION	13
2.2	PURPOSE OF THE STUDY	13
2.3	RESEARCH DESIGN	13
2.3.1	Qualitative design	14
2.3.2	Explorative design	14
2.3.3	Descriptive design	14
2.3.4	Contextual design	15
2.4	RESEARCH METHODOLOGY	15
2.4.1	Ethical considerations	15
2.4.2	Population and sampling	17
2.4.3	Sampling criteria	17
2.4.4	Sampling technique	18
2.4.5	Data collection	19

Table of contents

Page

2.4.5.1	In-dept phenomenological interviews	19
2.4.5.2	Field notes	20
2.4.5.3	Probing	20
2.5	PILOT INTERVIEWS	20
2.6	DATA ANALYSIS	21
2.7	LITERATURE REVIEW	21
2.8	MEASURES TO ENSURE TRUSTWORTHINESS	22
2.8.1	Truth-value	22
2.8.2	Applicability	24
2.8.3	Consistency	25
2.8.4	Neutrality	26
2.9	CONCLUSION	26

Chapter 3

Findings and literature review

3.1	INTRODUCTION	27
3.2	SAMPLE	27
3.3	FIELD EXPERIENCE	28
3.4	COMMUNICATION AS A STRATEGY FACILITATING DIGNOSIS, DISCLOSURE, ACCEPTANCE AND SUPPORT OF WOMEN WITH HIV/AIDS AND CERVICAL CANCER	29
3.4.1	Experience of physical symptoms	31
3.4.2	Respondents' experience of communication	32
3.4.2.1	Patient-doctor communication	32
3.4.2.2	Doctor-patient communication	33
3.4.2.3	Patient-family and patient-peer communication	33
3.4.2.4	Patient-patient communication	35
3.4.2.5	Good communication versus poor communication	35
3.4.2.6	Experience of being diagnosed	38
3.4.3	Emotional experience of being diagnosed with HIV/AIDS and cervical cancer	42
3.4.3.1	Fear of death	42
3.4.3.2	Fear of leaving children alone	43
3.4.3.3	Fear of the unknown	43
3.4.3.4	Fear of alienation	44
3.4.3.5	The respondents' hope	44
3.5	CONCLUSION	45

Chapter 4

Guidelines for the support of women diagnosed with both HIV/AIDS and cervical cancer

4.1	INTRODUCTION	46
4.2	GUIDELINES FOR THE SUPPORT OF WOMEN DIAGNOSED WITH HIV/AIDS AND CERVICAL CANCER IN THE RADIATION ONCOLOGY DEPARTMENT IN A PUBLIC HOSPITAL AND IN THE COMMUNITY	46
4.2.1	Phase 1: Management of symptom experience	47
4.2.1.1	Symptom experience	47
4.2.1.1.1	Per vaginal bleeding	47
4.2.1.1.2	Pain	48
4.2.2	Phase 2: Improvement and maintenance of communication channels between patients and healthcare professionals	50
4.2.2.1	Patient-healthcare professional relationship	50
4.2.2.2	Healthcare professional-patient relationship	51
4.2.3	Phase 3: Improvement of support mechanisms for women living with HIV/AIDS and cervical cancer	51
4.2.3.1	Importance of support mechanisms	52
4.3	CONCLUSION	56

Chapter 5

Conclusions, limitations and recommendations

5.1	INTRODUCTION	57
5.2	CONCLUSIONS	57
5.3	RECOMMENDATIONS	58
5.3.1	Importance of communication	58
5.3.2	Education	59
5.3.3	Further research	60
5.3.3.1	HIV/AIDS and cervical cancer research	60
5.3.3.2	Developing and testing community-based models of care	60
5.4	LIMITATIONS	61

Table of contents**Page**

5.5	CONCLUSION	62
	BIBLIOGRAPHY	63

Table 3.1	Respondents' ages	28
Table 3.2	Themes associated with the experience of being diagnosed with HIV/AIDS and cervical cancer	30

List of abbreviations

AIDS Acquired immune-deficiency syndrome

CDC Centre for disease control

HIV Human immuno-deficiency virus

HPV Human papilloma virus

STDs Sexually transmitted diseases

USA United States of America

List of annexures

Annexure 1 Request for permission to conduct a research study

Annexure 2 Consent letter for participants

Annexure 3 Interviews
