

- (i) PASTORAL COUNSELLING OF SECONDARY VICTIMS OF CRIME AND TRAUMA IN THE PRE-ADOLESCENT AGE GROUP
- (ii) by ANNA MAGDELENA PETRONELLA ROUX
- (iii) Degree: MAGISTER THEOLOGIAE
- (iv) Subject: PRACTICAL THEOLOGY
- (v) Promotor: DR C J HUGO
- (vi) Joint promotor: Not applicable
- (vii) Summary:

In this study a research is done on the pastoral counselling given to pre-adolescent secondary victims of trauma and crime in the age group 11-13 years. Certain concepts will be discussed which will be used as a framework for this study. The nature and effect of trauma on the pre-adolescent will be addressed pastoral-theologically. Theories that will be investigated as appropriate on the counselling of the pre-adolescent is narrative theory, Biblical counselling and Stone's crisis counselling. The manner in which assistance will be given through pastors and counsellors to the traumatised pre-adolescent will be investigated and discussed.

The application of certain therapies like narrative therapy, , children's drawings, and family drawings, children's drawings as projection-technique and children's drawings as diagnostic aid as well as the interpretation thereof will be explained according to a case study. The shortcomings of some of these approaches will be highlighted and application thereof will also be highlighted.
