The list ~~in~~ I made ^{was confined to} ~~consists of~~ regiments actually represented in the tribe
by a member or members at the time when the list was made. I also
collected a corresponding list with of women's regiments formed
at the same time as the men's regiments. The women's regiments have
the same names as the men's regiments, but different commanders.
~~In addition~~ In my list I have an additional column
giving the place where the Barolong had their headquarters at
the time when the regiment was formed. Prof. Schott Am
