Dear Mr. Matthew,

I'm happy to report a significant development in our work. Our latest analysis shows that we are on track to meet our goals by the end of the month. The team has been working diligently, and we are making good progress.

Best regards,

Question 1.

Railway Workers at Bradock.

This Union desires to ask the Railway Administration to supply it with particulars regarding Native Railway Workers at Bradock.

1. What provision is made for the housing of African employees of the Railways at Bradock?

2. Whether the Railway Administration is aware that its African employees are not welcome as residents in the urban location owing to shortage of housing.

3. Is it the case that African pensioners from the employees have no provision made for them at all in regard quarters.
Whether it is true that African employees work for 10 hours a day while European employees work 8 hours a day (4) that the former get no annual holiday (5) that when the former are away from work many get heavier they are dismissed or suspended from work (6) that the African employees have any ordinary leave or sick privileges at all (5) that there is any provision for overtime on week-days from Sundays for African employees (6) that provision is made for Women’s Emancipation for African Railway Employees.
Dear Mr. Matthews,

We would be very glad to hear from men like you selves, about whom we have already secured some views. Give us hope of deliverance especially this if you see any of the railway workers in your part, think of us, which we are unable to do. We had a meeting here on the 14th inst. to ventilate our grievances.

We blocks work to have a day while miners work 8 hours a day. While they take turns in resting at our expense three times a day. We have no holidays, not even once a year, and you feel unwell & stay away from work, you are immediately dismissed or suspended. We are told that a report has been made to Port Elizabeth. The next thing that happens is that you are paid off without having a reply from Port Elizabeth.

On top of all that we have no house in which to live. Each men has one room to live in together with his family. We have complained about these conditions to our superiors. We have been told that if we continue to do so, we will be transferred to the location and when we go there we are told that we cannot get houses because we are railway employees. We live in tin shanties and even then we are pensioned off any unable to get room in the location. They are told to see to themselves.

There are others of us who work outside accompanying our superiors. They have serious complaints. Even when their relatives have died, they are unable to get leave. It is said to be against the regulations. No provision is made for quarters for them while on outdoor duty. They have no regular hours to get us overtime pay. When they complain, they are told they can go. We work on Sundays. We don't know what pay we get for hour. We can not ask any question for fear of being dismissed. We just take what we get at the end of the month.

There are other complaints we would like to make about the accidents which befalls many of us in this work who get no compensation and we are unable...
Medical Aid Committee
