My dear Prof. Matthews,

Thanks for your letter of the 20th and attached Memo. which I found very thoughtful. Its contents have been despatched to the Member with emphasis on the main points and without mentioning your name.

As to the proposed meeting here of the Afr. Students' Board on which I am to speak on the theme of my recent article in Daybreak and to which I thought one of you people and/or Patrick Duncan might be invited to put the opposite point of view, it seems that the students are not yet prepared for this with a view to outside reactions. So the most I could suggest at this stage is that Duncan should come along as a member of the audience with me.

The meeting is on the 9th May at 7pm. and Duncan could touch at my home University Street no. 4. Will you kindly inform Mr. Whyte and Mr. Duncan and Dr. Xuma, if interested?

Yours truly,

L.J. du Plessis
