The Bursaries are tenable for one year, and are paid in two instalments, in December and June, on the receipt of certificates that the holders are continuing their studies in schools or colleges approved by the University Council.

14. In its last report the Council stated that the expediency of modifying in some respects the present scheme of examinations was under consideration, and that the Professors and Lecturers under the Higher Education Act had been invited to favour the Council with their views on

the subject. The Council is now in possession of the recommendations of these gentlemen, and also of a valuable series of recommendations from the Convocation of the University.

These recommendations have been referred for consideration and report to two Committees—one to deal with the examinations in Arts, and the other with the examinations in Law.

15. In order to equalise as far as possible the value of the Scholarships offered at the University Examinations, the Council has extended the tenure of the Maynard Scholarship from two to three years, and has arranged that an extra Porter Studentship be offered every third year. By this arrangement the programme of open Scholarships will repeat itself every three years as follows :—

1896—Porter, Maynard, and University Scholarships.

1897—Ebden and University Scholarships.

1898—Porter and University Scholarships.

16. Some slight modifications have been made in the regulations for the Music examinations. The third series of these examinations will be held in 1896, and will be conducted by Professor Franklin Taylor, who examined for the University in connection with the first examination in Music two years ago.

17. Regulations for the Pianoforte Teachers' Examination have now been published. The first of these examinations will be held in 1896, under the supervision of Professor Taylor, and the Council has reason to believe that this examination will do much to improve the quality of musical instruction in the Colony.

18. The Council has offered the J. B. Ebden Prize for competition in 1896. The subject for the essay is: "In certain countries, such as the South African Republic and the Orange Free State, National Banks have been established. Give the characteristics of such banks, and discuss the advantage or otherwise of having one established in the Cape Colony."

19. A standing Finance Committee has been appointed to advise the Council in all matters of finance. The members of the Committee are the Chief Justice, the Hon. Mr. Justice Smith, and the Hon. C. A. Smith.

20. With the view of giving increased facilities to non-Colonial candidates, the Council has resolved that, in future, applications for registration from non-Colonial candidates who desire to be examined at places beyond the Colony, may be forwarded to the Registrar, either directly or through the Government of the Colony or State in which the candidates reside.

21. During the year a communication was received from the Secretary of the Council of the South African College, submitting proposals for a School of Mines for South Africa, and asking the University Council to take measures for conducting the proposed Examinations, and for conferring certificates, diplomas and degrees in mining.

The Council has carefully considered the matter, and has resolved that, for the present, the question of granting a degree in Mining Engineering stand over, but that a diploma be given to such candidates as shall pass three examinations, and that the holder of this diploma shall be entitled to sign himself *Mining Engineer*. Regulations for the first of these examinations, which will be held next June, have now been published, and the Council hopes to have the whole scheme completed at an early date.

22. In accordance with the provisions of Section 12 of Act 32 of 1895, arrangements have been made by which any person on the Fixed Establish-
[G. 4—'96.]

ment of the Civil Service, or any candidate who has passed the Civil Service Examination, and who shall also have passed the Civil Service Law Examination, whether graduates in Arts or not, may present themselves for examination in the subjects of the LL.B. examinations.

23. The Annual Graduation Ceremony was held in the Good Hope Hall, on the 9th of August, when the Vice-Chancellor, in the absence of the Chancellor, conferred degrees on those who were qualified to receive them, and addressed the congregation on the work of the University.

24. The Council, while acknowledging the liberality of the Legislature in voting the supplies necessary for carrying on the various operations of the University, begs again to call the attention of the Government to the urgent necessity for the provision of more suitable premises.

25. Appended to this Report are a statement of all receipts and expenditure during the year, and a comparative statement of the results of all the examinations conducted by the University since its incorporation in 1873.
