JHB

Dear Prof. Matthews,

With great interest have I followed the late newspapers with their conflicting reports about your future plans. It seems definite now that you will go to fields farther afield. Yes, it is very difficult to decide where there are important issues at stake for you personally, for your family, and for your people. I hope that you feel an inner most satisfaction in your final decision, even though some elements of doubt may inevitably linger.

I send you and Mrs. Matthews my warmest regards, also from Mrs. Brookes, and sincere good wishes for your future.

Yours sincerely
L.R. Brookes.
