Professor Z.K. Matthews,
University College of Fort Hare,
Alice,
C.P.

Dear Professor Matthews,

The American Association of University Professors wrote to me last month in connection with the position of university teaching staff in South Africa. I gave them the position in regard to Fort Hare and have now received their reply, a copy of which I enclose herewith.

It is difficult for me to know what to say from here and I think it would be best if you dealt with Professor Fidler direct. I have written to him to tell him that I am sending you a copy of his letter and I have also asked him to write to you.

Please let me know in what way we could help at the University of Natal.

Yours sincerely,

Leo Kuper.
