Dear Professor Matthews,

Have you seen the new FORUM ? It reflects my own viewpoint on most matters, but I wish to draw your attention to the article by our Principal in the July issue. His views on the correct approach to the relations of Africans and others coincides very closely with my own. I think you will agree that it is a very beautiful article.

I am sending you a copy of the FORUM in case you have difficulty in obtaining one in Alice.

With kind regards,

Yours sincerely,
