Dear Frieda:

My thoughts and prayers are with you in these sad moments. I can remember my association with Z.K. with joy, and appreciation. He was a challenging figure. In a very real sense he was responsible for my keen interest and involvement in Africa going back to our first contacts during the Defiance Campaign. He will be sorely missed by his many friends and associates. His contribution to the struggle in South Africa was unique.

If there is anyway I can help in these difficult days for you, please let me know.

With love,  
George
