Prof. J.H. Matthews
Alice,

Dear Jack,

I hope you won't get a cheek to get a letter from me.

Mentally I have written you several letters of congratulations for the several honours you have received (observed & I) from the public & in particular. But actually you never received a single one from me. I'm really ashamed of myself, I say this sincerely.

After I read the 3rd of Our Heroes, I was so inspired that I mentally wrote you a letter, requesting you to print these articles in a book for the past, present & future generations. Your articles are a good guide for our future. To know that we, too, have had such brilliant men & women.

The spirit of our children
of our children,
would rise: the (short) would
give hope for the future.
They would struggle for the
summit—each with his own
brush.

We thank you for these
articles. We very much ap-
preciate them.

As Hamilton Masiga’s history, there
was an error which I wish to
point out only because my
life is going to be recalled
again (by request). The late
H. Masiga was not the founder
of the H.B.M.A. I asked him
to get Mr Ashley-Smith to train
conductor a choir as I felt that
we should have a man,
rather than a woman to do
the job.

In the late Badi Mbelle’s
history you mentioned Gama
Mtonibili and me, as being in one
of the surrounding schools, where-
as we were both in the Linds-
hurst Road School like Dr
M. Lema, Miss Xiuwe et al.
I was a kindergarten teacher, in particular.
I am merely making these corrections in connection with the compilation of these articles. I do not wish you to make mention of these in the press—please!
With kindest regards to you, I tried to.
I am very sincere.

Yours,

[Signature]
