Dear Mr. Moore,

This is just a note to let you know that I have now reached Geneva and have taken up my appointment with the World Council of Churches. The World Council is a fairly big organization divided into various sections each specifically concerned with the work in a particular field. The division in which I work is concerned with getting the Church to work together in their ministry to people in need in different parts of the country without regard to race, creed or color. These needs may arise because of natural disasters, earthquakes, floods or military upheavals, or simply as a result of economic conditions. The concern of the Council is with the affected people, whether they be refugees or seeking asylum, or entering into joyful entrances.

As you know, I am coming to New York in a few days and I have heard that there is a desire to have an organization representing the churches in some way in the United Nations. There is a great need for us to be heard in the United Nations, for we can do so much to help the victims of such disasters in their hour of need. We must use our influence to ensure that the UN and other international bodies take the necessary steps to prevent such disasters in the future.

I am very anxious to meet you and discuss these matters. Please let me know if you can do so. I am looking forward to our meeting and to discussing these important issues.

Yours sincerely,

[Signature]

P.S. I enclose a copy of the report on the atomic bomb and the future of the human race. It is very interesting and relevant to our discussions.
Mr. P. A. Moore, M.P.,
House of Assembly,
Cape Town,
Republic of South Africa
