27-1-36 I received a letter  
from Maphophe speaking furiously  
about my cattle in his camp.

27-1-36. I removed my cow, calves  
& bull from his camp. These  
were grazing only during the  
day. - I shall see Maphophe  
about this.

I never get angry because once  
you are, you are a beast & you  
cannot think properly.

sympathy on him or who goes  
about neglected tends to fight  
everybody & the teacher.

Study the child & be sympathetic  
& encourage him.

By Mr Cook. Geography

Encourage curiosity.

1. Why teach it?

2 (a) child must see pictures of earth,  
+ how other people live.

(b) Understand action of geographical

forces. (1) When do we get our rain  
wind - erosion - volcanoes

(2) Desire to control these forces for  
child's good. Dead knowledge is

no use.

(d) Compare the new thing you  
are teaching with something that  
a child knows.

(e) Use + read maps

(f) Let children question one  
another. Every pupil must come  
with 6 questions tomorrow + then  
ask one another. Competition  
between pupils + points given.

- (9) Which side of river is deepest
- (h) Technical terms must be explained in vernacular.
- (i) Model maps (painted).

Schemes & How to prepare them.

1. Scheme of work is a plan that gradually rises & should be written in a clean exercise book labelled outside "Scheme of work" ruled up neatly. Put the year.
2. Never draw schemes in record book

Geography

Africa in outline

S.A. in detail.

1. The size of Africa. Use walking as some measure. Walking from here to the river, to J.H.P. to Cape Town to Cairo

matriarcal people = women are bosses

where people live

Patriarcal people = men are bosses.

2. Communication i.e. wireless, roads, post, trains, aeroplanes, telephones.

3. Size, build, Rivers, climate, vegetation, animals, people, communications.

4. Put title of your lesson out of it.

5. Remark is not a record of work  
Do not just say taken! (not interested!)

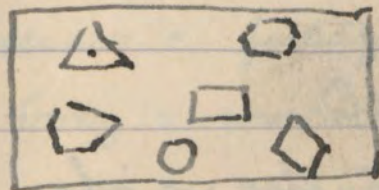

Good lesson!

Find faults with yourself vs children did not know what cotton was, next year I shall see that this is known.

Kindergarten by Mrs Fuller.

1. Paste a picture on a cardboard then cut it up. Then let children join them.

2. Filling in lozenges on a holed board with eyes open first then with eyes blind folded.

The Marking of Exams:-

The examiner must enter marks in a sheet duplicate of which is kept by the chairman.

Children should bring food with them at their examination.

Examination Boards should meet & discuss the work they were going to do for next year's examination.

Dr Cook, Ladies & Gentlemen!  
Wednesday Afternoon. 8/4/35

Bishop Fuller speaks on Character.  
He is Superintendent, Missionary & teacher.

1. Mind - Soul - Heart - body.
2. mind = learning rules & applying them.
3. Soul = reason & use of facts
4. Heart = feelings - joy - love - beauty - religion
5. body = work - games - eating - drinking  
sitting in the sun - animal love  
When mind & body are the chief rulers of life it is quite impossible to be good teachers.
6. use the 4 points in the right place

Character reveals you to be what you are. Shows ability to be leaders or non leaders.  
You will be "son" to end of his life  
& John .. .. John .. ..  
but you can be "son" + or -  
and John .. .. John + or -

How to become the plus people.

1. Find your weak spots.

Know thyself.

I was walking along a passage  
& at the end there was an

horrible man coming towards me.

It was myself reflected in the  
Mirror.

2 Good Pt: Results obtained by  
you at a very adverse circumstance.

Mr. Clarke advised Fuller to  
open a training college.

3 By chance he bought a farm for  
£300.

4 He laid 1100 bricks.

5 1<sup>st</sup> Students were those that had passed  
ST III.

6. You teachers are courageous. Thankful.  
Weak points in character.

1 Dominant Idea is: "I want some more  
money." If you worry about this you  
will never do any good work

Mrs Fuller left England at 20 to  
P.F.A. Holding the Highest Certificate  
& was earning £20 a year.

never allow need of <sup>money</sup> possess you  
too much.

2. Some teachers say I am paid only  
for 5½ hours. This is a very dangerous  
condition. But Bishop begins his  
at 6 o'clock a.m. & 9 p.m.

Work you do without payment  
elevates you higher.

3. Discipline: Can <sup>help</sup> keep discipline?  
Force, stick, punishment, & fear  
= bad teacher.

4. Untidiness, carelessness,  
untidiness, waste, inaccuracy.

I judge you partly by the  
children from your school to  
this school."

Throwing away things, wire, time etc  
a waste is a terrible thing

5. Inaccuracy.

6. Book torn, ink, bits of paper everywhere. cutting bits of paper.

Fearful bad signs of character.

7. Truth & honesty. Children tell lies - but grown-up people to tell lies!

Boys may false passes.

Look at yourselves <sup>see what is wrong</sup> & put it

right.

#### RELIGION

Education is a process of imitation.

Mr. Hastings, union organizer

secretary of the Boys Scout movement.

"We want to be happy & to make others happy".

ill-health is a loss of wages of happiness.

The boy should be personally responsible for his health.

Mind training by observation.

"To be a man."

Handicraft keeps boys from falling into ways of crime, sin, Communism.

Parents are not ready to support the movement that is for the good of their sons.

Courage, hopefulness, self-reliance, self-control.

Through bioscopes, press etc may tend to create in people less imagination & the opinion of the few is now drilled into the many & people stop thinking out things for themselves.

Sympathy is the main avenue to the highest happiness.

Helpfulness, thoughtfulness for others is the spirit of religion the religion of Christ.

[66] Health as the first mark  
of an educated man.

Dr. Van der Litz.

- 1 Essential things about health.
- 2 Human nutrition.
3. Unemployment whether it is one of the contributory factors to mal-nutrition.
4. a man who works with pick & shovel requires more food than a man in the office.
5. a man requires more nutrition than a woman does because of the hard work that he undertakes.

Calorific value of the person should be taken into consideration.

II Constituent of a diet  
(meat-bean) butter. (porridge) (fruit)  
proteins, fats, carbohydrates, vitamins  
(water)  
+ minerals.

Definite ratios required otherwise unbalanced diet ensues.

[67]  
Moroho is very important factor for the nutrition of a human body. Some natives have taken to meat unfortunately.

That is caused by the breaking up of food & thus keep our bodies at a constant temperature.

III Carbohydrates (starch & sugar) don't overdo the proportion of food.

fault: You are inclined to eat too much sifted porridge whose 90% vitamins have been removed.

IV Minerals & vitamins A.B.C. & D.

found in fresh fruit, green veg & grass. Veg. should not be cooked for more than 15-20 minutes.

Starvation time, natives have lack of these.

The Boss + Missis think that the Boy could live only on meat + M. meal. + yet they should give boy sufficient varied food.

- 1 very busy as doctor.

2. Balanced diet.
3. Ignorance on these things. train down
4. Long ago conditions.
5. unemployment.
6. Conditions in towns.
7. Thanks for coming - wish long life of very useful service to orative people.

Raw milk is necessary.

Dr. I have great pleasure for moving a vote of thanks

I How to approach a friend

II That God guides one to approach an individual.

III What is wrong, we don't feel the way we used to.

We must love one another enough to be able to hurt in order to put things right.

IV. Create a group round you.

Mr. D. C. Marivate will keep the money.

In case we get more money, milk may be bought with that money.

## Programme

Friday night: Camp fire.

Saturday: Inspection by

Mr Woodfield at 9. A. m.

Demonstration by troops.

Speech by Mr Woodfield.

Marching + Singing.

General games.

Those that must be told about it: All the Missions.

Mr. Louw. Mrs. Kubur

Maybe told about it also

Mr. R. Liegure + Mr. Boekes.

Camp Chief: Mr. Maboko.

The Camp Chief will see to post

Mr. Simati thinks that if

Mr. Woodfield is called he

may find very few boys

& it will be a shame.

Mr. Mpafukh proposes that

the D.P.C. should find out from

the Officers about the strength

of the troop.

The Rally must go on  
says Mr. Impafule.

Mr. Impafule thinks that the  
effect of the movement  
these days is dying. He  
has noticed the dwindling  
of the numbers & of the  
spirit. There is no more

service as was done in  
the past. Is it impressing  
the onlookers with its usefulness  
& service. What must we  
do to organise so that the  
spirit must come back.

Mr. Shabula thinks that the  
fact is due to lack of something  
practical & material as desired  
by boys.

He suggests that we should  
concentrate on an age limit  
12 - 16. Big boys do not

like it because of their age  
& bodily change. Boys  
also. Service, the ~~troop~~ must  
have character.

Mr. Impafule thinks we should  
interest ourselves to individuals  
& not to the troop in general.  
Individual ability should be  
encouraged. Draw out their  
abilities.

Mr. Simati thinks that the  
senior boys should not be  
left out. The bigger boys  
should be made sub officers.

Mr. Shabula replies that  
experience has taught us that  
bigger boys have different  
tastes.

DC. We should divide & have

Trackers 9-10. P/Fs 11-16.

Rovers: 17-

Agrees: That Rover section

[94]

Should be started where possible. Books. Roving to success. What a young boy ought to know.

Mr Hakula's letter about his leave from activities from Pathfinding for a time, say up to July 1938. Then he might report in July 1938.
