The wording of questions in questionnaire 1, asking students to list the benefits and problems of chemistry practicals

Describe at least 10 benefits of doing practical work in school chemistry in grades 10, 11 and 12.

From your experience of doing practical work in school chemistry in grades 10, 11 and 12, describe as many problems as you can. Think of various aspects such as problems for the teacher, for learners, for the school, problems with time, with knowing how to do the practicals, with equipment and chemicals, with breakages and problems in the practicals themselves. Give as much detail as possible.
