13. OPTICS AND HEAT.—The elements of Optics and Heat with practical tests such as the following :

Readings of scales and verniers, the use of micrometer microscope ; determination of the angular values of the division of spirit levels, use of the optical bench and determination of foci of optical combinations, the practical construction of thermometers and barometers, and the determination of their errors, the determination of the relative coefficients of expansion of metallic scales, and the errors of graduation of circles and scales.

This minimum is not required except for a pass in Part I. by itself.

†† Candidates who take Part II. at a date subsequent to Part I. will be credited with the marks obtained by them in Part I.

15. The names of candidates who pass in Part I. only will be published in alphabetical order, but no certificate will be issued. In the case of candidates who have taken the whole examination either in the same year or in different years, the names of those who are successful will be published in order of merit, as determined by the total marks obtained in Part II. only.

It was decided after discussion that the Report be adopted on the understanding that paragraphs 10 and 13 be referred back to the Committee with power to draw up a more detailed syllabus of the requirements of these paragraphs.

The following Report of the History Committee was submitted and adopted with modifications indicated in red ink.

A.
The Committee submits the following recommendations in connection with the details of the above scheme :-

I That the detailed syllabus for the general European History of the Pass Examination be as follows :-

(a) From 375 to 1517 A.D. as given in the detailed Syllabus for the Intermediate Examination.

(b) From 1517 to 1648 A.D. as follows:
The Reformation, Emperors Charles V and Francis I; England to the accession of Elizabeth; Spain; The 80 Years War; France to the death of Louis XIII; England under Elizabeth, James I and Charles I; The 30 Years War; France till the Peace of Westphalia.

II. That the detailed syllabus for the first paper of the Honours Examination be as follows:-

A. Colonization in general: (a) Motives and aims; (b) Policy and institutions in the Colonies; (c) Loss or disposal of Colonies; (d) Contrast between ancient and modern views on Colonization.

B. Ancient and Mediaeval Colonization: Phoenicia - Greece - Rome - The Border Colonies of the Mediaeval Empire - The Norman Colonies of Italy - Colonies of the Crusaders and the Italian commercial cities - Sicily - The Teutonic Order

C. Modern Colonization :- The influence of the discovery of the Sea Route to East India and of America. The Colonial Possessions of Portugal, Spain, England, the United Netherlands, France, Germany, Italy, Russia, Denmark, America, Japan. The Congo State.

III. That for the third paper of the Honours Examination the Special period in the first instance be 1756 - 1789.

B.

The Committee has had under consideration the remit from the Council asking it to prepare a syllabus for the fourth paper of the Honours Examination.

The Committee submits that the subjects of this paper make only one part of the Honours Examination in History, and that itself is only a part of the total examination required from the candidate for the B.A. degree. It is also a new subject.

Under these circumstances the Committee adheres to its previous recommendation that a selection of books should meanwhile be prescribed rather than a syllabus.

The Committee accordingly submits the following revised list of books for this paper:-

Aristotle's Politics

Hobbes' Leviathan, chap. 13-30.

Seeley's Introduction to Politics

Husley's Method and Results

1. On the Natural Equality of Man

2. Natural Rights and Political Rights

3. Government: Anarchy or Regimentation.

Froude's Short Studies Vol. II Reciprocal Duties of State and Subject.

S. Townsend Warner Landmarks of Industrial History.

19 May 05

C.
The Committee further recommends that in each of the Honours papers in History a choice of questions be given of which not more than four are to be answered.

D.
The Committee further recommends that the marks for the Honours Examination in History be as follows:-

1st paper	300	150	300
2nd "	450	350	350
3rd "	150	100	200
4th "	150	100	200
5th "	150	150	150
Aggregate	1200		
Minimum for Honours	400		

E.

As after 1905 candidates for the B.A. Pass Examination will be allowed a choice of subjects the Committee recommends that the scheme of marks be amended to read as given below.

[The present scheme is attached for the sake of comparison.]

	1905		after 1905			
	Max.	Min.	Max.	Min.

Marks for B.A.
Pass Exam. revised

19 May 05

With reference to (E) attention was drawn to the fact that the position of History at the Pass B.A. Examination after 1906 had not been yet considered by the Council, and that therefore the scheme of marks set forth in this section of the Report could not for the present be extended beyond the examination of 1906.

Mr Jenkins accordingly gave notice that he would move at next meeting that the subjects of examination and the standard of marks adopted for 1906 hold good for 1907.

Report of
Literature Com^{tee}

The following Report of the Literature Committee was submitted and adopted.

The Committee submits the following Report:-

1. That it has considered a motion referred to it by the Council with reference to prescribing text books in Modern Languages for the Intermediate examination and is of opinion that the proposal should not be adopted.
2. That it has considered the question of drafting regulations for the degree of Doctor of Literature and is of opinion that it is premature to prepare regulations for such degree.
3. That it has considered an application from a candidate for the M.A. examination in Modern Languages to be allowed to present "The Historical Novel" as the subject of his 6th paper in English, and has approved of the subject offered.

Revised Syllabus
in English

A Report was submitted by the Committee appointed to revise the syllabus in English of the various University Examinations. It was decided that the Report be approved, subject to modification in details, and that the Committee be instructed to communicate with the Superintendent-General of Education in order to endeavour to secure the cooperation of the Education Department and to report further to next meeting of Council.

Report of Joint
Committee

The following recommendation submitted by the Joint Committee of Literature and Science was submitted and adopted:

Age limit
at Matric

The Committee reports that it has considered a motion referred to it by the Council with reference to imposing an age limit on candidates entering for the Matriculation Examination and is of opinion that the proposal should not be adopted.

The remaining portion of the Report was held over till next meeting.

Report & motions
postponed.

It was also decided to postpone the consideration of the Report of the Matriculation Committee and certain motions referring to the Matriculation and Intermediate Examinations until next meeting, and that at next meeting a definite vote should be taken on the question of allowing Latin to be optional at the Matriculation Examination, absent members to be requested to vote by proxy.

Motion re
statistics rejected

The following motion of which due notice had been given by Mr Fremantle was put to the vote and negatived:

That it be an instruction to the Registrar to prepare and publish forthwith statistics showing in the case of each school and Colony, and for each School and University Examination, the number of candidates who passed in the various classes.

Date of Council
Meeting.

In view of the meeting of the British Association to be held in Cape Town in August it was decided to hold the next meeting of Council on August 11th.

Publication of
Calendar

The Registrar reported that the arrangement with Messrs J. C. Juta & Co. for the publication of the Calendar had expired. It was decided to refer the matter to the Vice-Chancellor's Committee with a view to making suitable arrangements for a further period.

Admission of
C.S. Undergrads
candidates to Final LL.B.

was submitted
a Letter from a Graduate in Arts of the University applying for admission to the Final LL.B. Examination under the following circumstances:—

The applicant was approved for admission to the B.A. degree in November, 1904, and passed the Civil Service Preliminary LL.B. in December of that year. Had he entered as an ordinary candidate, and paid the full fee, he would be entitled to enter for the Final LL.B. Examination in 1905. He now requests to be admitted to that examination on payment of the full fees for the Preliminary and Final Examinations.

19 May 05
It was decided to grant the request contained in the letter.

extension of exhibition regulations
Attention having been drawn to the fact that the Regulations for the award of Matriculation Exhibitions did not allow candidates who would be in other respects eligible for an exhibition to hold the exhibition while continuing their studies with a view to taking the First Professional Medical Examination of the Scottish Universities, it was decided to amend the regulations by deleting the words "in this University" after the words "with a view to passing" in section 6 of the regulations.

Paideutics at the B.A. Exam.
A Letter from the Superintendent of Education of Natal recommending that the History and Science of Paideutics be included as a subject for the B.A. Pass Examination either in the Department of Literature or in that of Science. was referred to the Joint Committee of Literature and Science for consideration and report.

simplification of Dutch
A Letter from the Hon. J. H. Hofmeyr and Prof. de Vos submitting resolutions with reference to language simplification adopted by the Dutch Language Congress, was, after discussion referred to

the Literature Committee for report, the name of Mrs. A. Moores being added to the committee.

Committee on finance
The Registrar reported that he had been unable to complete the financial statement with regard to the cost of each examination but suggested that when completed the statement should be submitted to the Committee for consideration and report.

It was decided to adopt the suggestion and to appoint the following as members of the Committee: Sir C. Abercrombie Smith, Mr. Searle, Dr. Hunt, Mrs. Jenkins and Mr. Bender.

arrangements for Civil Service Commission work
A letter from the Secretary of the Law Department intimating the withdrawal of the grant for the work done by the University officers in connection with the Civil Service Commission was referred to the same Committee with the proviso that the present financial arrangements hold good till the report of the Committee is submitted.

Chairmen of Science Examiners app.
It was decided to appoint Mr. Hough and Dr. Marshall as joint Chairmen of the Committee of Science Examiners for the higher examinations, the Examiners Selection Committee to make suitable arrangements of

19 May 05 either of the chairmen appointed were unable to act.

Appointment of examiners in
piece of Dr Malherbe.

A letter was read from Mr. Malherbe in which he stated that he had prepared all but one of his papers, but that he would be absent from the Colony and thus be unable to examine the work of the candidates.

It was decided to accept the papers Mr. Malherbe had already prepared and to authorize the Examiners Selection Committee to make arrangements for the correction of the candidates' work.

Memorandum re
practical exams.

A memorandum was submitted by Prof. Beattie with reference to the practical examinations in Science. It was decided after discussion that no action in the matter till next meeting.

The appointment of examiners in Practical physics was also held over till next meeting.

Law books out
of print.

A letter was submitted from Messrs J. C. Juta & Co with reference to certain text-books for the law examinations which are out of print. It was decided to refer the matter to the Vice-Chancellor and Mr. Seale.

Report of Vice-Chancellor's Com^{tee}

A Report was submitted by the Vice-Chancellor's Committee stating that it had admitted Peter Haig to the Intermediate Examination in Arts, and submitting the following recommendations with reference to the arrangements for publishing the Calendar.

The Committee recommends that the terms of agreement with Messrs. Juta & Co. for the publication of the Calendar be as follow:-

1. That the agreement be for a period of five years.
2. That the whole cost of publication be defrayed by the publishers the University paying the cost of printing the Examination Papers.
3. That the published price of the Calendar shall not exceed 3/- (three shillings) per copy.
4. That the publishers shall supply the University with such copies of the Calendar as may be required at 2/6 per copy, and that fifty copies be delivered out of the first shipment.
5. That only advertisements of an Educational nature be inserted in the Calendar, and that such advertisements be placed at the end and be open to all applicants on the same terms.
6. That the printing and binding of the Calendar be done in England and that the publishers shall undertake to have carefully read in England such portions of the proofs as may be necessary.
7. That the publishers shall supply the trade equally and without a disadvantage, at 2/6 per copy nett.
8. That the publishers shall use all reasonable dispatch in the publication of the Calendar.
9. That the form and style of the present Calendar be adhered to.

The Committee further recommends that in order to recover the expense incurred by the University in reprinting the Examination papers in the Calendar, a charge of 1/- be made for a complete set of papers for any examination.

For acceptance see Endorsement

The recommendations of the Committee with reference to the publication of the Calendar were adopted, and the proposal to charge for copies of Examination papers was also adopted.

Examiners
appointed.

The following Examiners were appointed for the Examinations Specified:

For the M.A. Examination

(a) In Mental and Moral Science

Prof. Walker, Mr. Brummer and Prof. Loveday.

(b) In Physics (Magnetism and Electricity)

Professors Beattie, Morrison and Egg.

For the Chalmers Memorial Prize:

Mr. Murrinan and Prof. Cory.

Latin at
the Matric.

In accordance with the resolution adopted at last Council meeting a definite vote was taken on the question as to whether Latin should be made optional at the Matriculation Examination or not, and the result of the voting after a full discussion was as follows:

For optional Latin, 11 including 1 proxy vote.
Against, 13.

Report of
Matric. Com^{tee}

As a result of this decision the Report of the Matriculation Committee appointed in August 1906 was not discussed, and the Council proceeded to consider the Report of the original Matriculation Committee as given below:

A. That the subjects for the Matriculation examination be as follows:-

(1) English (two papers)

(2) Dutch

French

German

Kafir

Sesuto

Any one of these five Modern Languages.

(3) Elementary Mathematics (two papers)

(a) Arithmetic and Algebra.*

(b) Geometry.

(4) Latin (one paper)

(5) Either (a) Elements of Physics and Chemistry.

or (b) Elements of Biology (Botany and Zoology)

(6) Either History or Greek.

* A protest from Prof. Crawford against the proposal to substitute a combined paper in arithmetic and algebra for separate papers in these subjects as at present was made upon the scheme was considered.

11 Aug. 05

- D. That the marks obtainable in each paper be 300 except in English and Mathematics in which the marks shall be 200 for each paper.
- C. That there be no set books for the classical papers.

After discussion it was decided to adopt paragraphs A (1), (2), (4) and (6) as printed. Paragraph A (3) was adopted as printed with the proviso that there be a minimum required in arithmetic as well as in Mathematics as a whole.

Paragraph A (5) was adopted in the following form:

- | | |
|-------------------------|--|
| (5) Elements of Physics | } any <u>one</u> of these four Sciences. |
| Elements of Chemistry | |
| Elements of Botany | |
| Elements of Zoology | |

Paragraphs B and C were adopted as printed.

It was resolved to refer to the Committee the consideration of the following points:

- (a) The minima to be required under the proposed amended scheme.
- (b) The following motions submitted by Prof. Veltjeon:
- (1) That of the 300 marks assigned to Modern languages 100 be allotted to each section, and that the minimum required be 60.

(2) That in the case of Dutch at the Matriculation Examination candidates may be required (under Section B) to write a short composition.

(c) The question as to whether the Regulation shall be continued which requires a certificate from candidates taking a Science subject to submitting that they have studied the subject experimentally.

(d) The question as to more specific regulations being drawn up with reference to the conditions under which applicants who have passed similar examinations elsewhere shall be excused the Matriculation Examination.

Notice of Motion
Intermediate Exam:

The following motion by Prof. Beattie, standing over from a previous meeting, was in the absence of the mover, allowed to stand over till next meeting.

11 Aug. 05

(a) That in and after December, 1906, the subjects for the Intermediate Examination be divided into two groups:—

A. English.	B. Mathematics.
Dutch.	Dynamics.
Latin.	Physics.
Greek.	Chemistry.
German.	Botany.
French.	Zoology.
History.	Geology.

(b) That candidates for the Intermediate Examination may not take more than six of these subjects, at least two to be taken from each group.

(c) That a committee be appointed to make any changes in the regulations, marks, and syllabuses which may be deemed necessary for the proper carrying out of (a) and (b).

The following Report of the Honorary Degrees Committee was submitted

Report of
Honorary Degrees
Com^o.

The Committee recommends that in connection with the meeting of the British Association for the Advancement of Science to be held in Cape Town in August 1905, Honorary Degrees be conferred as follows:

(1) On the following officials of the British Association:

(a) President:

Prof. G. H. Darwin, M.A., LL.D., Ph.D.,
F.R.S. [D.Sc.]

(b) Presidents of Sections:

Mathematical and Physical Science:

Prof. A. R. Forsyth, M.A., D.Sc., F.R.S. [D.Sc.]

Chemistry:

G. J. Beilby Esq. [D.Sc.]

Geology:

Prof. H. A. Meiers, M.A., D.Sc., F.R.S. [D.Sc.]

Zoology:

G. A. Boulenger, Esq., F.R.S. [D.Sc.]

Geography:

Admiral Sir W. J. L. Wharton, K.C.B., F.R.S. [D.Sc.]

Economic Science and Statistics:

Rev. W. Cunningham, D.D., D.Sc. [D.Sc.]

11 Aug. 05

Honorary Degrees

Engineering:
Colonel Sir O. Scott Moncreiff, G.C.S.J., K.C.M.G., R.F.L.

Anthropology:
A.C. Haddon Esq. M.A., Sc.D., F.R.S. [D.Sc.]

Physiology:
Col. G. Bruce, M.B., F.R.S. [D.Sc.]

Botany:
Harold Wager Esq., F.R.S. [D.Sc.]

Educational Science:
Prof. Sir R.C. Jebb, Litt.D., M.P. [Litt.D.]

(c) General Secretaries:
Major P.A. MacMahon, R.A., D.Sc. F.R.S. [D.Sc.]
Prof. W.A. Herdman, D.Sc., F.R.S. [D.Sc.]

(d) General Treasurer:
Prof. John Perry, D.Sc., F.R.S. [D.Sc.]

(2) On the following distinguished visitors representing their respective countries:-

Austria: Prof. A. Penck, Vienna. [D.Sc.]

France: Prof. H. Cordier, Paris. [Litt.D.]

Germany: Prof. A. Engler, Berlin. [D.Sc.]

Holland: Prof. J.C. Kaplym, Groningen. [D.Sc.]

Russia: Prof. Amalitsky, Warsaw. [D.Sc.]

Denmark: Prof. Bohr. [D.Sc.]

and such other representatives of foreign countries or British Colonies as the Council may select.

(3) On Sir David Gill, K.C.B., F.R.S., Litt.D.,
Chairman of the central Organising
Committee for South Africa.

The following Notice of Motion by Prof. Brattie was considered in conjunction with the above Report:

That Honorary Degrees be conferred upon the following:
Sir W. Crookes, F.R.S., D.Sc.
Prof. Hicks, Vice-Chancellor of the University of Sheffield.
Anthony Trill, M.D., LL.D., Provost of Trinity College, Dublin.
Dr. Murray, Editor of the Oxford Dictionary.
Mr. Theodore Reunert, President of the South African Association for the Advancement of Science.
and upon such others as the Council may select at its meeting on August 11th.

After discussion it was resolved to confer Honorary degrees upon the following: (see next page.)

The question of amending the Regulations for Honorary Degrees was discussed, and Prof. Walker gave notice that he would submit for consideration certain amendments in the Regulations.

- (1) GEORGE HOWARD DARWIN, M.A., D.Sc., LL.D., Ph.D., F.R.A.S., F.R.S.
Plumian Professor of Astronomy and Experimental Philosophy in the University of Cambridge; President of the British Association, 1905.
- (2) SIR WILLIAM CROOKES, D.Sc., F.R.S.

Past President of the Chemical Society; Past President of the Institution of Electrical Engineers; Past President of the British Association for the Advancement of Science; Royal Medallist of the Royal Society; Davy Medallist of the Royal Society, 1888; Bakerian Lecturer of the Royal Society, 1878-1879, 1883; Editor of the Quarterly Journal of Science; Editor of the Chemical News; Medallist and Prizeman of the French Académie des Sciences, 1880.

DOCTORS OF LITERATURE :

Report of Joint
Committee.

The following Report of the Joint Committee of
Literature and Science was submitted:—

- The Committee having considered the proposals submitted by Prof. Morrison at the meeting of the Council in August 1904, recommends that the proposals be adopted in the following form:—
- I. That candidates for the Pass B.A. degree be allowed to take the examination in two parts the first of which shall consist of at least two subjects and may be taken one year after the Intermediate examination.
 - II. That Part I. in Literature and Philosophy shall include not more than three subjects and Part I. in Science not more than two.
 - III. That a candidate be not admitted to the Honours examination in any subject or group of subjects until one year after he has passed in the corresponding subject in the Pass Examination.
 - IV. That candidates at the B.A. Examination be permitted to substitute one Science subject for one of the Literature subjects, and that Science candidates be permitted to substitute French or German or History or Logic and Psychology for one of their Science subjects.
 - V. That in the event of Nos. I and IV. being adopted, the B.A. Pass Examination in Science should contain four subjects.

After discussion it was resolved that the Report be not adopted.

Report of Law

Report of English
Committee.

The following Report of the Committee on English was submitted and adopted:

(A) SCHOOL AND MATRICULATION EXAMINATIONS.

At the meeting of Council held on 19th May, it was resolved: "That the Preliminary Report, then submitted by the committee, be approved, subject to modification in details, and that the Committee be instructed to communicate with the Superintendent-General of Education in order to endeavour to secure the co-operation of the Education Department, and to report further to next meeting of Council." In accordance with this resolution representatives of the Committee met the Superintendent-General of Education on Saturday, 10th June, and ascertained that there was no objection on the part of the Education Department to the proposed Syllabus. The Committee recommends that the Syllabus and Scheme of marks as given below be finally adopted, and come into force in 1906.

SYLLABUS.

School Elementary Examination.

First Paper (1½ hours): Dictation.
Essay.
Correction of Sentences, testing knowledge of Accidence, Syntax, and the proper use of words.

	2nd Paper	... 150
Matriculation :	1st Paper	{ Composition 100 Spelling 20 } 170
	2nd Paper	{ Grammar, etc. 50 ... } 130

(B) INTERMEDIATE EXAMINATION.

The following amended form of the regulations is recommended (see pp. 96, 97 of the Calendar).

Four subjects for composition will be offered, none of them to be connected with the set work of the year; and of these the candidate must select one only. The candidate is recommended to give about an hour and a half to the composition test.

(C) B.A. EXAMINATION.

No alteration proposed.

Practical Examⁿ in Chemistry
A Report was submitted by the Committee appointed to revise the Syllabuses for the Examinations in Practical Chemistry. It was decided to refer the Report to the whole Science Committee for further consideration.

Report of Literature Com^{tee}
The following Report of the Literature Committee with reference to the proposed Dutch language simplifications was submitted.

Dutch language simplification
The Committee reports as follows:—

I. That it has considered

- the letter from the Hon. J.H. Hofmeyr and Prof. de Vos, submitting for the approval of the Council a statement of proposed simplifications of the Dutch Language in South Africa.
- A Memorandum placed before the Committee by Prof. Logeman containing a classified summary of the proposals indicated in the letter.

(A summary of (a) and a copy of (b) are submitted herewith.)

II. That the following resolutions were adopted:

- That the Council accept as statement of actual facts of the present Dutch language all those parts of the Taalbond's proposals which are enumerated under heading I of Prof. Logeman's Memorandum, with the addition of No. III. 6 of the same memorandum in slightly amended form.

11 Aug. 05.

Dutch orthography.

- (2) That the system accepted by the Society for the Simplification of the Written Dutch Language be allowed in all Examinations conducted by the University.
- (5) That the proposals referred to in No. III. of Prof. Logeman's memorandum be not recommended.

Short Summary of contents of letter from the HON. J.H. Hofmeyr and Prof. d. Vos, submitting for the approval of the Council a statement of several Simplifications in the Dutch Language in South Africa.

The letter gives a short historical sketch of the movement, of the support it has found among teachers and others in South Africa and of the approval of its principles by many scholars of high standing in Holland. It points out that a similar movement in Holland is meeting with extensive support and more or less official sanction.

The letter concludes as follows:

"From the particulars we have given herein it is evident that the promoters of the simplification of the Dutch language in South Africa have not acted with precipitation in their own country or in disregard of the opinions of the greatest scholars in the Netherlands. Nor do they approach your University Council without warrant of the Dutch Press and the Dutch Teachers of South Africa. The most important Dutch organs of the Press in the Cape Colony, the Transvaal, Natal, and Orangeia have already adopted the simplifications and so also has a conference attended by some sixty Colonial teachers lately held in Cape Town, while letters of approval were received from some forty others."

A detailed statement of the proposed simplifications is enclosed with the letter, most of which are stated to be exactly the same as those now being adopted more and more extensively in Holland, but a few of which evidently concern South Africa only.

THE SIMPLIFICATION OF DUTCH.

The "Simplifications" advocated by the Zuid Afrikaansche Taalbond, may be conveniently classified under three heads, as follows:

1.—More or less noticeable deviations from the old-fashioned (archaic) forms and flections, which are still taught in some of the older school-grammars, and still—optionally—used in very formal, elevated or poetical style. Their mention in this connection should be looked upon as a—for some old-fashioned people not absolutely unnecessary—reminder of what is now generally practised in Holland, even by such writers as wish to preserve the present grammatical and orthographic forms and rules.

These are—

FLECTION.

(see the Pamphlet of the Taalbond, page 16).

(1) The Genitive (Possessive) ending in *s*, (i.e. the "declined genitive") should be written only where it is used also in spoken (conversational) Dutch, i.e. in—

(a) Proper nouns, and the words which are used as such: vader, moeder, etc., e.g. *moeders boek, vaders boek*, etc.
 (b) The Neuter Singular of the Adjective after such words as *uw, mijne*, etc., e.g. *mijne knaand, uw zwaai*, etc.

(2) The use of the archaic forms of the genitive (such as e.g. *des goeden mans*, etc., etc.) is exclusively confined to elevated style, or the diction of prayer and the pulpit. The natural spoken language uses the periphrastic forms of the genitive and the dative. The declined forms should accordingly be used only where required by considerations of style.

(3) The forms *een, geen, mijn, zijn, haar, hun*, *we* may be used for ALL genders and ALL cases, SINGULAR and PLURAL: e.g. *Ik heb 'em vriend, zij heeft geen vijand, ter w'w vader 'n w'w moeder*, etc., etc.

The forms ending in *n* of the possessive substantive pronouns, and the ordinal numerals are only used when speaking of persons: e.g. *de mijnen di de w'w; w'w w'wien vallen de laatste zijn*, etc., etc.

THE PRONOUN.

(Pamphlet, page 17, No. 4).

(1) The "weak" or unemphatic forms of the pronouns, should be used by preference wherever no emphasis is desired: i.e. by the side of *mij*: *we v. zij* or *haar*; *we v. wij*; *'t v. het*, etc., etc.

(2) In the choice between the various forms for the personal pronoun of the second pers. singular and plural, the usage of the spoken language should be followed: *zij* or *ge* are never used in conversation; they are confined to the language of prayer, the pulpit, or public oratory, and are replaced by *U* or *ji*, *je*, *jij*, etc.

(3) The use of such expressions as: *Jan z'n boek, moeder haar boek, w'w z'n boek* etc. *zij haar*—i.e. the periphrasis of the possessive case by means of the noun followed by the possessive pronoun—is to be recommended.

11 Aug. 05.

Dutch
orthography.

(5) *Hun* may not stand for *hen*, but *ze* may be used for either: *de zus* (for *ze*) *gezegd*, *de zus* (or *ze*) *niet gezien* etc.
Nothing will be said, nor anything said in the pamphlet (page 18) about the conjunction, to which the attention of teachers is called. It is new, or anything but a most acceptable—recognition of a practice which is already, though not regularly and without exception, followed by all, even the most formal, authors of the present day. The inclusion of these recommendations in the list of proposed innovations is only perhaps to be regretted in as much as this may induce some readers of the proposals to believe that he who does not wish to adopt the real simplifications, but to adhere to the "authorised" grammar and orthography of Dutch (de Vries & te Winkel) should avoid these approaches to the spoken language as "revolutionary" or as "innovations." In examinations (both in Holland and in this country) no examiner would have the right to count the adoption of these rules as errors, even if the candidate should in all other respects remain faithful to the older spelling.

II.—Simplifications in Spelling, Flexion, etc. which are also advocated by Dr. Kolleryn c.s. in Holland.

SPELLING, FLEXION, ETC.

This, the so-called "Kolleryn Spelling" is adopted by the "Vereeniging tot de Vereenvoudiging van onze Schrifttaal" and used in more than one publication (periodicals, etc.) at present appearing in Holland. It is, however, not yet officially sanctioned or recognised, nor is its use permitted in school—or other examinations.

The main innovations of this system are:

- (1). The *e* is NEVER doubled in an open syllable (see Pamphlet p. 13.B.1)
- (2). The *z* is not doubled in an open syllable, except at the end of a word, and of monosyllabic words with their compounds and derivatives. (Pamphlet, p. 16.B.2.)
- (3). The suffix *ij* is to be written, more in agreement with the correct pronunciation: *id*.
- (4). The *ch*, when not pronounced after *z*, is omitted in writing.
- (5). The flexion *-n* is omitted in the Accusative Masc. Sing. of the Article, Adjective and Pronoun.

III.—Proposals which imply more or less important deviations from what is considered "pure Dutch" in Holland, and the adoption of which will create a difference between the Dutch of Holland and that of this country, similar in nature, though not so marked perhaps, as that between Dutch and Cape-Dutch as here spoken among the rural population.

These are:

- (1). The omission of the definite article before the possessive substantivum shall not be counted a mistake.
- (2). *Wie* may be used by the side of *hen* for the possessive pron. *zij*, where the possessor is of the feminine gender: *gelyk de zuster hem* or *haar* may be used.

ogen der dienstmaagden zijn op de hand van HAAR (or van HUN) erover, etc. (pamphlet, page 18).

(6). THE VOCABULARY (see pamphlet page 19). The use is permitted of words, wordforms and expressions, which though rare or completely unknown in Dutch, are here in common use, such as:

- (a). Words which in this country are still employed in their original (XVII cent.) form or meaning.
- (b). Words which exist here with a modified meaning.
- (c). Words and expressions which originate in "the character of our people and the nature of the land."
- (d). Words and expressions borrowed from foreign languages and here understood by everyone, and generally used in speaking or writing.

And finally: (pamphlet page 17, No. 4) Nouns indicating life, and sex-less things are neuter as far as the personal pronoun is concerned which serves to replace them or to refer to them: hence we say *Is de Koffie ook geene?* *Ja, ik vind DIT (HEE) redt te soet—Waar heeft u de wijn?* *DIT (HEE) is hot good*, etc.

The Pamphlet of "de Taalbond" contains further (pp. 19 and fol.) the following "Declaration"—elsewhere in the Introduction alluded to as the "Charter," of those who wish to see the proposals adopted—

"That the general principles according to which the Zuid-Afrikaansche Taalbond wishes to set to work in simplifying the written language in South Africa are in agreement with scientific conception concerning requirements (nature) of a language.

"That the proposals for the simplification of the spelling in South Africa are not opposed to the character and the laws of the Dutch Language.

"That it is perfectly justifiable to use, also in the written language, words and expressions which are generally known in South Africa, and that small modifications in vocabulary ("woordgebruik," lit: the use of words) and forms of the language, such as those proposed by the Taalbond, do not impair the higher Unity of the Dutch Language."

Follows a list of 49 signatories.

It should, however, be known that 9 of these gentlemen (i.e. those named on page 29,—with the exc. of Prof. G. Kallé,—and No. 3 on page 21, (Prof. Holwerda)) have since "protested" against the adoption of the Kolleryn-spelling in the Netherlands, and qualified their adhesion to the proposals of the Taalbond as a concession made exclusively to our South African Brethren ("een concessie uitsluitend gedaan aan onze Zuid-Afrikaansche stamverwanten").—See for this fact: "Open Brief aan de Heeren (follow the names enumerated above), which letter is signed by the President and the Secretary of the "Vereeniging tot Vereenvoudiging van onze Schrifttaal," Dr. R. A. Kolleryn, and P. Valkhof. Dated: Amsterdam, Maart 1905.

The following letter from Prof. de Vos in connection with the Report of the Committee was also considered:

Sir,

We the undersigned, representatives of the Cape Colony, on the Committee of the Inter-Colonial Congress in reference to the simplification of the Dutch language, take the liberty of respectfully submitting the following to the favourable consideration of the University Council.

1. We have been informed that the Literature Committee has resolved to report to the Council, that it can find no terms for recommending the adoption of what the Congress proposes regarding "the choice of words;" and that this resolution was carried by the casting vote of the Chairman.

2. So far as our information goes, this is owing to a commendable desire on the part of the majority to preserve the purity of the Dutch language; that they are afraid that the formal adoption of the principle proposed will lead to the introduction into the written language of what is considered objectionable in ordinary Cape Dutch.

3. We submit that to preserve the purity of the Dutch language in South Africa is just one of the principal things aimed at by us, and that we are convinced that what is proposed by the Inter-Colonial Congress will contribute more to that end than what the Literature Committee recommends. There are two opposite extremes in this matter the one being the free use of the ordinary Cape Dutch, and the other the attempt to tie us down to the Dutch of Holland in every word and phrase.

11 Aug. 05

Dutch
with op. Afrika

They who have been in a position to watch the development of the Dutch language in South Africa, are convinced that the latter is attempted in vain, and is calculated to defeat the very object aimed at. The different national character and the different history of the people, and their surroundings in South Africa must of necessity exercise a considerable influence on the language in regard to the use and meaning of certain words and phrases. To mark all these without any distinction as mistakes is to make the people feel that their natural rights are being infringed upon, and that certain words and forms of speech, that are and will remain more or less strange to them, are being forced on them. This more than anything else tends to make them recoil from it, and make many even of our best educated youths go to the opposite extreme of giving the preference to the ordinary Cape Dutch.

It should not be lost sight of that for fully a century South Africa has not stood to Holland in the same relation in which for instance an English colony stands to England. This cannot but have had its influence on the relation even of good Dutch as used in South Africa, to the language of Holland. And yet the first scholars of Holland declare that what we propose will not affect the higher unity between the two.

4. We are convinced therefore that if the University Council simply refuses to approve of what is proposed under this head without any further explanation or concession, the general impression will be that the Council has gone to the opposite extreme, and that the result therefore would be the very opposite of what would be aimed at.

We are convinced that although we cannot as yet boast of a standard Dutch literature in this country as a people we have nevertheless arrived at the stage of development, that we know to draw the line in Cape Dutch, between what is objectionable and unnecessary on the one side, and what is unavoidable, necessary, and to be considered as good Dutch on the other. The best scholars of Holland have fully approved of the principle we act upon, and have sufficient confidence in us to leave the application of it to ourselves.

5. Would not therefore the Council, in case the majority should hesitate to approve unconditionally of what is proposed, feel at liberty to express itself more or less to this effect. That while fearing that the formal and unqualified approval of what the Congress proposes under this head will lead to the introduction into the written language of objectionable Cape Dutch expressions, the Council cannot lose sight of the fact that certain expressions though not generally used in Holland will not only unavoidably find a place in the written language in South Africa, but also have a right to be acknowledged as good Dutch.

The Council therefore considers that this matter should be settled in the ordinary manner by being left to the discretion of examiners, teachers and others who are acknowledged as competent to guide the people in this respect.

11 Aug. 05
After discussion it was decided to adopt the first and second recommendations of the Committee.

With reference to the third recommendation it was resolved

"That the proposals referred to in No. 3 of Prof. Logemann's Memorandum should be left to the discretion of the Examiners."

The following motions of which due notice had been given were considered:

(1) BY MR. JENKINS:

That the subjects and standard of marks for the B.A. Examination of 1906 hold good for 1907.

(2) BY PROFESSOR WALKER:

To add to the first section of the Regulations for the Master of Arts Examination the words "or of B.Sc. in the Department of Pure Science."

(3) BY DR. KOLBE:

That Stanley Weyman's "A Gentleman of France" or some such work be substituted for Kingsley's "Westward Ho," prescribed for the School Higher Examination, 1906.

By consent no. 1. was allowed to stand over to be considered at next meeting in conjunction with a notice of motion to be submitted by Prof. Nothardt to the effect that candidates for the B.A. Examination in '1907 be allowed to take any five out of the six subjects.

It was resolved that No. 2. be referred to a Special Committee consisting of Profs. Walker, Viljoen, Beattie, Martin and Morrison.*

It was resolved that No. 3 be referred to a Special Committee consisting of Dr. Kolbe, Prof. Walker and Mr. Whetton with power to act in the direction of providing relief.

Lady graduates of Dublin.
A Letter from Miss Gale of Claremont (Mathematical Tripos, Cambridge), intimating that she has obtained the degree of Bachelor of Arts in the University of Dublin, on the strength of her Cambridge Examination, and enquiring whether the Regulations for the admission of graduates *ad eundem* could, in view of the action of Dublin, be amended so as to meet her case and similar cases, was submitted and referred to the *ad eundem* degrees Committee.

Drawing at the 1st Mining Exam.
A Letter from Mr. W. J. Horne, Moderator in Drawing for the First Mining Examination, recommending the following changes in the Drawing syllabus: viz.—

After the word "model" to add the words "Drawing in outline of groups of the usual Art Models and simple Domestic Utensils, having bold curving outlines," and after the word "Freehand," the words "Drawing of Art Ornament in outline from the flat." (Calendar p. 200).

was submitted and referred to the Science Committee.

* The question as to the degree to which holders of the degrees of Doctor of Literature, Doctor of Science and Doctor of Philosophy should be admitted in this University was raised by Prof. Viljoen and referred to the same Committee.

Mining
Examinations.

was submitted

a Letter from the Secretary of the Transvaal Technical Institute forwarding for the information of the Council a copy of a letter^s addressed to certain of the Colleges in the Colony.

The following is the letter referred to—

Sir,
I have the honour to inform you that at a meeting of my Council held on Friday last, I was directed to notify your Senate that after this year the Third Year's Course, and after next year the Fourth Year's Course in Mining Engineering at the Transvaal Technical Institute will be arranged with a view to the Diploma of the Institute only.

I beg to refer you to the paragraph of the General Certificate Regulations at the top of page 121 of our prospectus, in terms of which students who hold the 1st Mining Certificate of the Cape University are enabled to continue their studies at the Institute.

It was resolved that a special Committee consisting of Professors Beattie, Hahn, Morrison, Mackenzie, and Martin, should consider and report upon the whole matter.

The question of Centres for the Practical Examinations in Science was discussed and after discussion the following resolution was adopted:

"That candidates for Honours be examined at one Centre, provided that when candidates are not all from one institution no candidate shall be examined in the Laboratory in which he has been taught.
Pass candidates may be examined at their own institutions."

Professors Beattie, Morrison and Ogg were appointed examiners for the Practical Examinations in Physics for 1905.

Prof. Morrison gave notice of motion to the effect that at the B.A. Honours Examination some research work should be required.

The following Preliminary Report of the Finance Committee was submitted and adopted.

I The Committee begs to report that it has under consideration a statement prepared by the Registrar containing a detailed account of the revenue and expenditure for the various examinations, and that it hopes to present a report on the subject at next meeting.

Finance Com^{tee}

11 Aug. 05

II. With reference to the temporary withdrawal of the Government grant of £200 per annum for services rendered in connection with the Civil Service Commission on the ground of reduction of work due to the suspension of the Civil Service Examinations, the Finance Committee begs to report that in response to representations made to the Law Department it has already consented to continue half of the allowances to the officers of the Council (£75) and the Committee fully expects that half the rent allowance will also be continued.

Under these circumstances the Committee recommends that the allowances to the Council's officers be continued in full.

Cape students
at Oxford and
Cambridge.

With reference to the standing of Cape students at Oxford and Cambridge and to the information on the subject supplied to the Registrar and communicated to the Council at a previous meeting ^{a letter was submitted from} the Senate of the South African College requesting the University Council —

- (1) To get confirmation of the fact that such a course as No. 2 referred to in the letter from Oxford is open to a Colonial student at Oxford, as this is precisely what is asked for by the Senate.
- (2) To request the Council of the University of Cambridge to make the necessary changes in the Statutes on the next occasion when any other change is contemplated, so that a Colonial student commencing residence (say) in Lent 1906 may take a Tripos Examination in Easter Term 1908 and proceed to a degree in June 1908.

It was decided that the Registrar should communicate with Oxford and Cambridge with a view to securing the objects desired.

Minutes to Survey
Exam.

The question was raised for the guidance of the Vice-Chancellor's Committee as to whether a pass in Latin can be accepted in place of a pass in a modern language for the purpose of admission to the Survey Examination. It was resolved that such a pass could be accepted for the purpose.

Sub-committee
to be appointed.

In connection with the appointment of standing Committees it was resolved that in the case of the Committees with Assessors those members who are members of the Council should appoint sub-Committees and draw up any rules they may deem desirable for the conduct of the business of the Committees in question.

Notice of Motion:
Leaving Certificate
Exam.

With reference to the decision of the Council to retain Latin as a compulsory subject at the Matriculation Examination Mr. Durriman gave notice to submit the following motion at the next meeting:

That the question of the desirability of the institution of a School Leaving Certificate be taken into consideration and agreed to.

Vote of thanks.

Before the meeting adjourned Prof. Walker proposed a vote of thanks to the retiring Vice-Chancellor for the able and successful manner in which he had presided over the deliberations of the Council during his four years of office and suggested that, as a mark of the Council's appreciation of his services, a portrait of Sir John should be obtained by the Council to be added to the existing collection of portraits of office-bearers of the University, and that the Registrar be authorized to take the necessary steps to carry out the suggestion.

The proposal was unanimously adopted, and the Vice-Chancellor expressed his thanks to the Council in fitting terms for the vote of thanks accorded him and for the honour conferred upon him in the proposal to purchase the portrait.

II.

The Committee submits the following recommendations :

1. That Candidates for the Final Teaching Examination be permitted to take their two Preparatory Examinations (a) and (c) [Calendar, page 290] in the same year as the Final Teaching Examination.
2. That Candidates for the Music Certificate Examination who have passed such an examination as, in the opinion of the Council, is equivalent to the Preliminary (Elements of Music) Examination be excused that examination.
3. That Candidates for the Final Teaching Examination be exempted from one or more of the three examinations (a), (b) and (c), [Calendar page 290] which are preparatory to the Final Teaching Examination, provided they are able to satisfy the Council that they have passed an equivalent examination or examinations elsewhere.
4. That applications for exemption referred to in Sections ² and ³ be dealt with by the Music Committee and reported to the Council.
5. That the personal allowance of Examiners be increased from 20/- to 25/- per day.

Nos. 1, 2, 3, and 4 were adopted, and No 5 referred to the Finance Committee for report.

It was further decided to request the Music Committee to specially consider the conduct of the Music Examinations and to report.

The following

Report of the Committee appointed to consider the following matters was submitted and adopted.

- (A) Admission to the M.A. Examination of candidates who have obtained or been admitted to the degree of B.Sc.
- (B) The equivalence of degrees in cases of applications ad eundem gradum.

(Submitted 3rd. November, 1905.)

With reference to (A) the Committee submits the following recommendations:

- (1) That in addition to the present degree of M.Sc. in Mining Engineering, a degree of M.Sc. in pure science be instituted.
- (2) That the subjects for this examination be the same as for the M.A. examination in Departments 5 and 6 viz: Mathematical science and Physical and Natural science.
- (3) That, if the above recommendations of the Committee be adopted, the Regulations for the proposed degree read as follows:

1. No candidate will be admitted to the M.Sc. examination unless he has previously obtained or been admitted to the degree of B.Sc.
2. A candidate for the degree of M.Sc. will be examined in any one of the two following departments which he may select, viz:-

1. Mathematical Science.
2. Physical and Natural Science.

Degree of M.Sc. in Pure Science.

3 Nov. 05.

Degree of M.Sc.

3. The examination for the degree of M.Sc. will consist of two parts, Part I. to be the examination for the honours B.A. degree in the subject or group of subjects selected by the candidate for his M.Sc. examination, Part II. to consist of an examination as specified below.

4. No candidate will be admitted to Part II. of the examination until after the expiration of one academic year from the time of his passing Part I.
5. The minimum for a pass in Part I. shall be the same as the minimum required in the honours papers at the B.A. examination.
6. Every candidate entering for Part II. of this examination must pay a fee of nine pounds. If the candidate withdraw, or fail to present himself at the examination, or fail to pass it, the fee will not be returned to him, but he will be entitled to present himself at any subsequent examination in the same department on payment of an additional fee of four pounds each time that his name is registered. The fee for Part I. is one pound.
7. A portion of the examination in Part II. may be conducted orally should the examiners deem it expedient to do so, the examiners to decide in each case where such oral examination shall be held.

PARTICULARS OF THE EXAMINATION IN PART II.

Department I. :- Mathematical Science.

(Syllabus same as for Department V of the M.A. Examination.)

Department II. :- Physical and Natural Science.

(Syllabus same as for Department VI of the M.A. Examination.)

Equivalence
of Degrees.

With reference to (B) the Committee makes the following recommendations:

- (1) That the holder of the degree of Doctor of Literature may be admitted to the degree of M.A.
- (2) That the holder of the degree of Doctor of Science may be admitted to the degree of M.Sc. and
- (3) That the holder of the degree of Doctor of Philosophy may be admitted to that degree (either M.A. or M.Sc.) which more nearly indicates the department in which he has graduated.

On the recommendation of the ^{Ad Eundem act} Honorary degrees Committee the following were admitted to the degrees specified :-

After discussion it was decided that the question of the Committee be answered in the negative and that the applications be not approved of in the absence of definite proof that the applicants were graduates of the Universities which granted their diplomas.

Women graduates
(by admission) of Dublin

With reference to the admission to degrees of women students who have passed examinations qualifying for degrees at Oxford and Cambridge the Committee reported that it is of opinion

- (a) that under the existing by-laws such persons cannot be admitted to degrees.
- (b) that it is not desirable to amend the by-laws so as to make such admissions possible.

It was decided that, in accordance with the recommendation of the Committee, no change be made in the existing regulations.

amended
Matriculation
Scheme.

The resolutions adopted at the last meeting with reference to an amended scheme for the Matriculation Examination were considered with a view to confirmation, and with these resolutions was also considered a Report of the Matriculation Committee on details connected with the amended scheme.

After discussion it was resolved that the scheme in the amended form given below be provisionally ~~adopted~~ confirmed, and be referred to the S.A. Teachers' Association for the favour of its consideration and report.
