AKSIALE KODERING: FIGURE

Hier volg die figure van die aksiale koderingsproses volgens die 23 kategorieë wat tydens die oop koderingsproses ge ko-konstreeer is. Die 23 kategorieë wat in terme van die kern fenomeen van die studie naamlik 'Lae selfagting' (wat deurentyd in die studie as tema in die data verskyn) gevorm is, is die volgende (na afloop van 'Lae selfagting' in alfabetiese volgorde) :

Lae selfagting, Emosionele problematiek, Geloof, Gesin van oorsprong, Gesondheid, Gewoontes, Huwelikslewe, Interpersoonlike verhoudings, Kinderjare, Kognitiewe funksionering, Molestering, Negatiewe etikette, Negatiewe skema, Negatiewe suggerering, Positiewe etikette, Psigoterapie (Sielkundige hulp), Seksuele problematiek, Sosiaal, Sosio-ekonomies, Substansmisbruik, Traumatische insidente, Verwagtinge, sowel as die kategorie Werksfunksionering.

'n Aksiale kodering op die verskynsel 'Kliniese beeld' is ook hierby ingesluit.

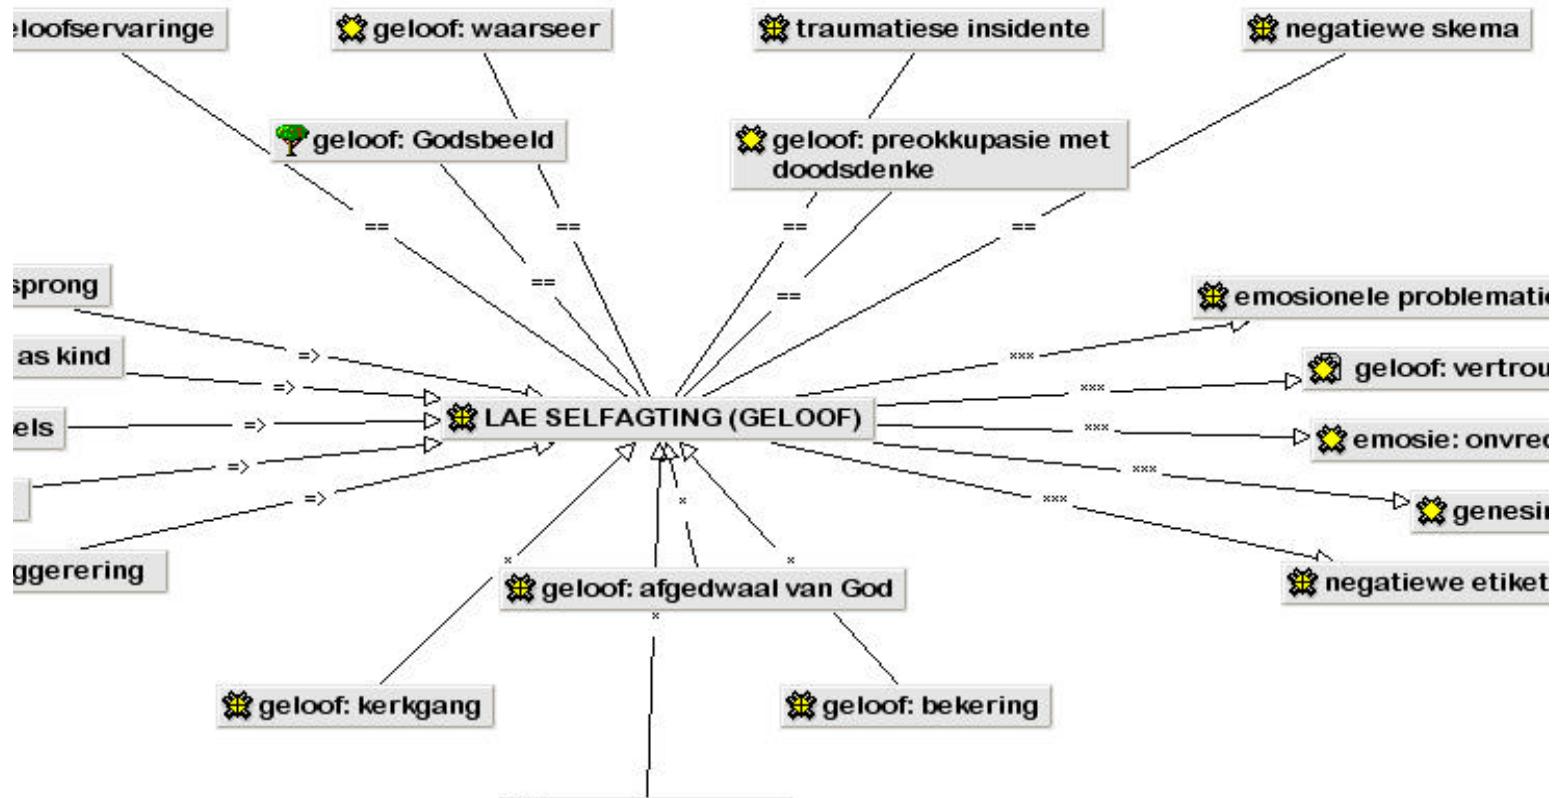

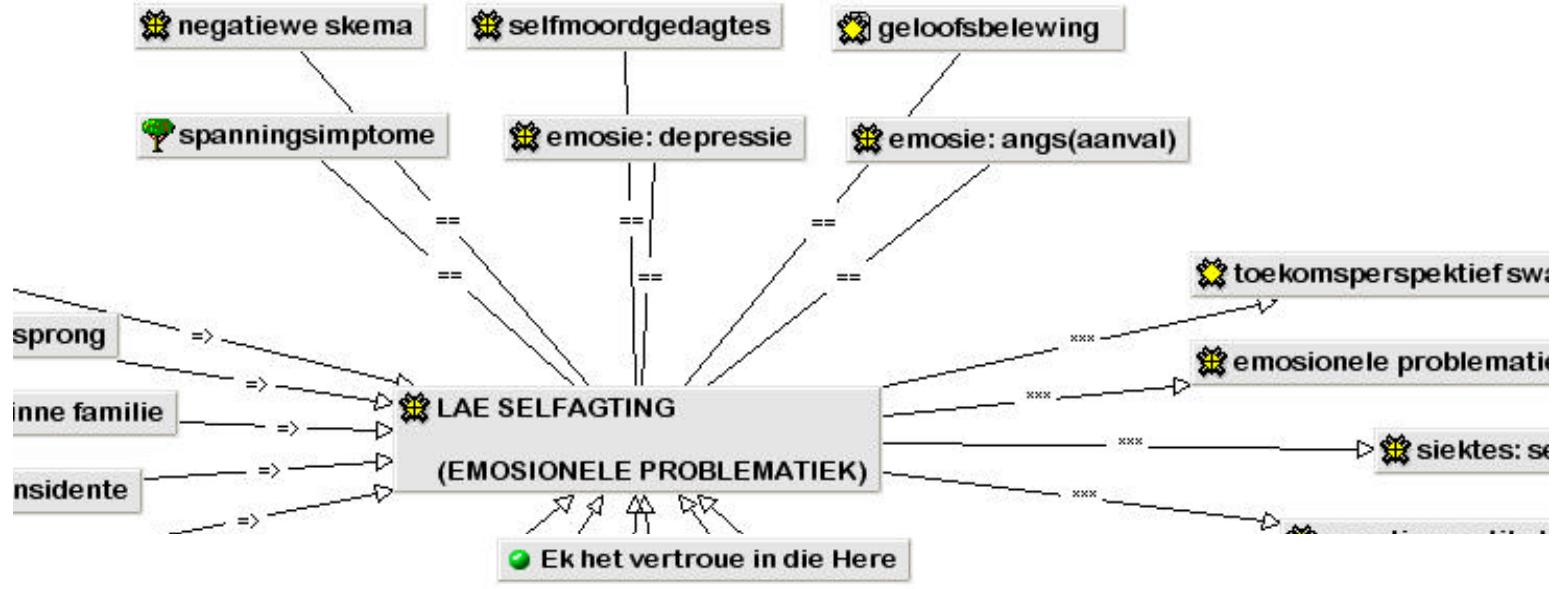

Die figure is alfabeties volgens die kategorienommer geranskik, met die uitsluiting van die kategorie 'Lae selfagting' wat eerste weergegee word.

Die sleutel (volgens Muhr, 1997) vir die identifisering en verstaan van die simbole wat in die aksiale koderingsfigure aangewend is, is die volgende:

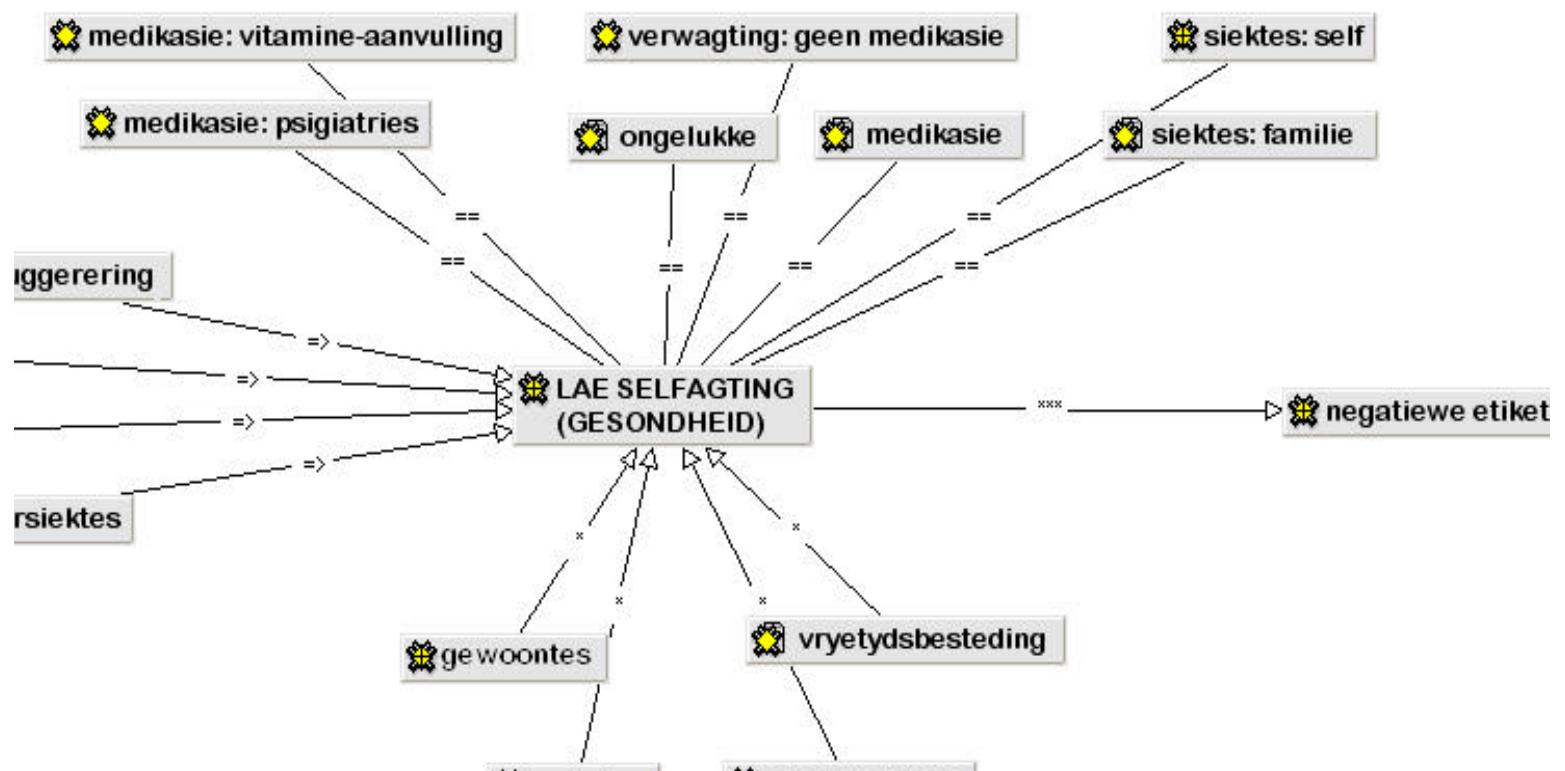

P	Oorsaaklike toestande ('is cause of')		Beskik oor kommentaar ('has comment')
=	Tussentredende toestande ('intervening conditions')		Geen kodes ('no codes')
*	Aksie of interaksionele strategieë ('interaction strategies')		Meer as vyf kodes ('more than 5')
***	Gevolge ('consequence')		Meer as drie kwotasies ('more than 3 quotes')

		 Alle ander (all others')

 Ek voel baie depressief

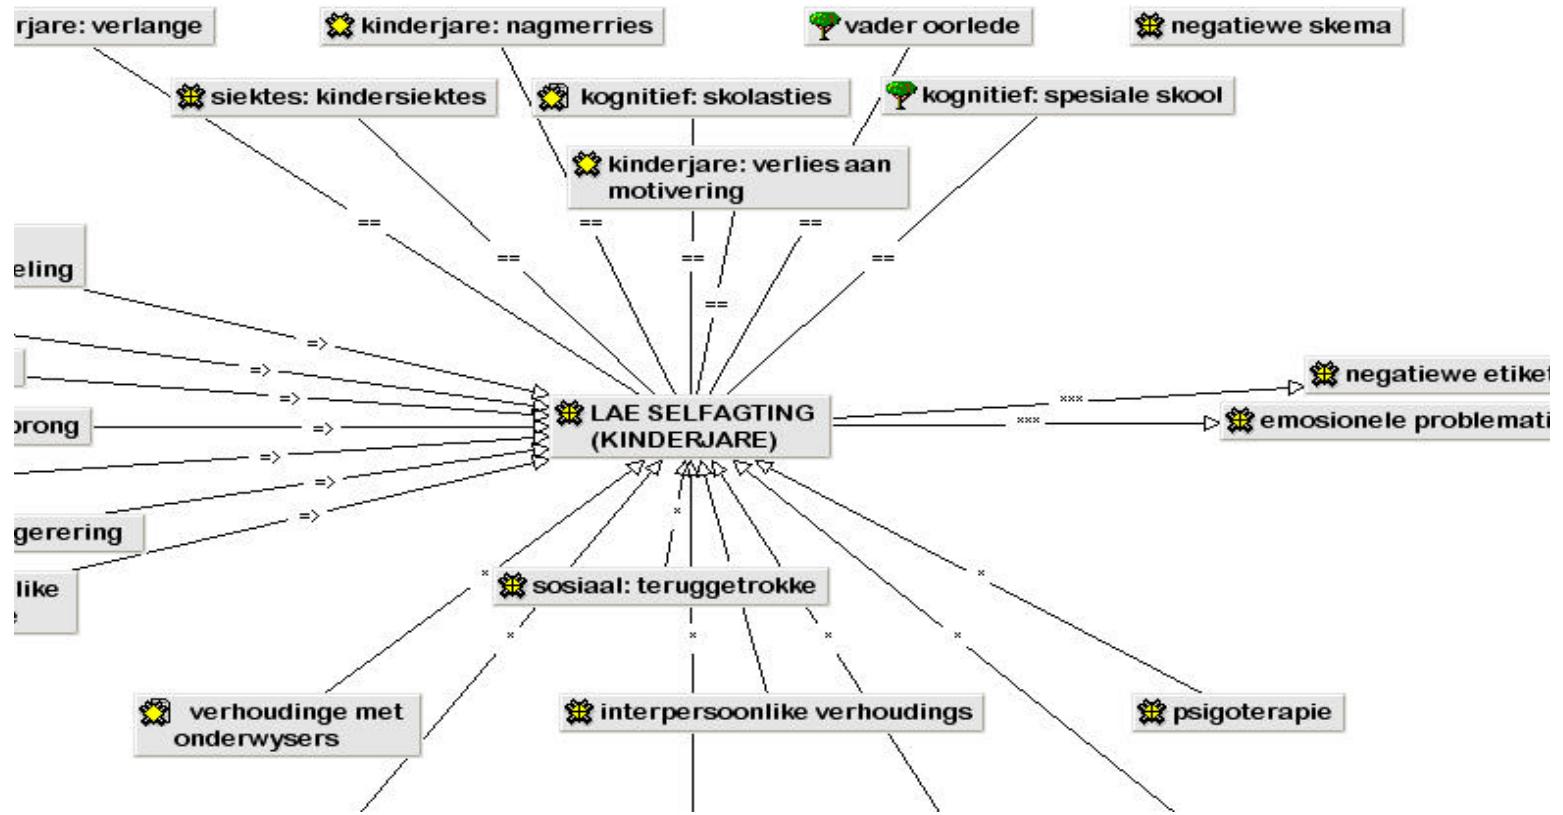

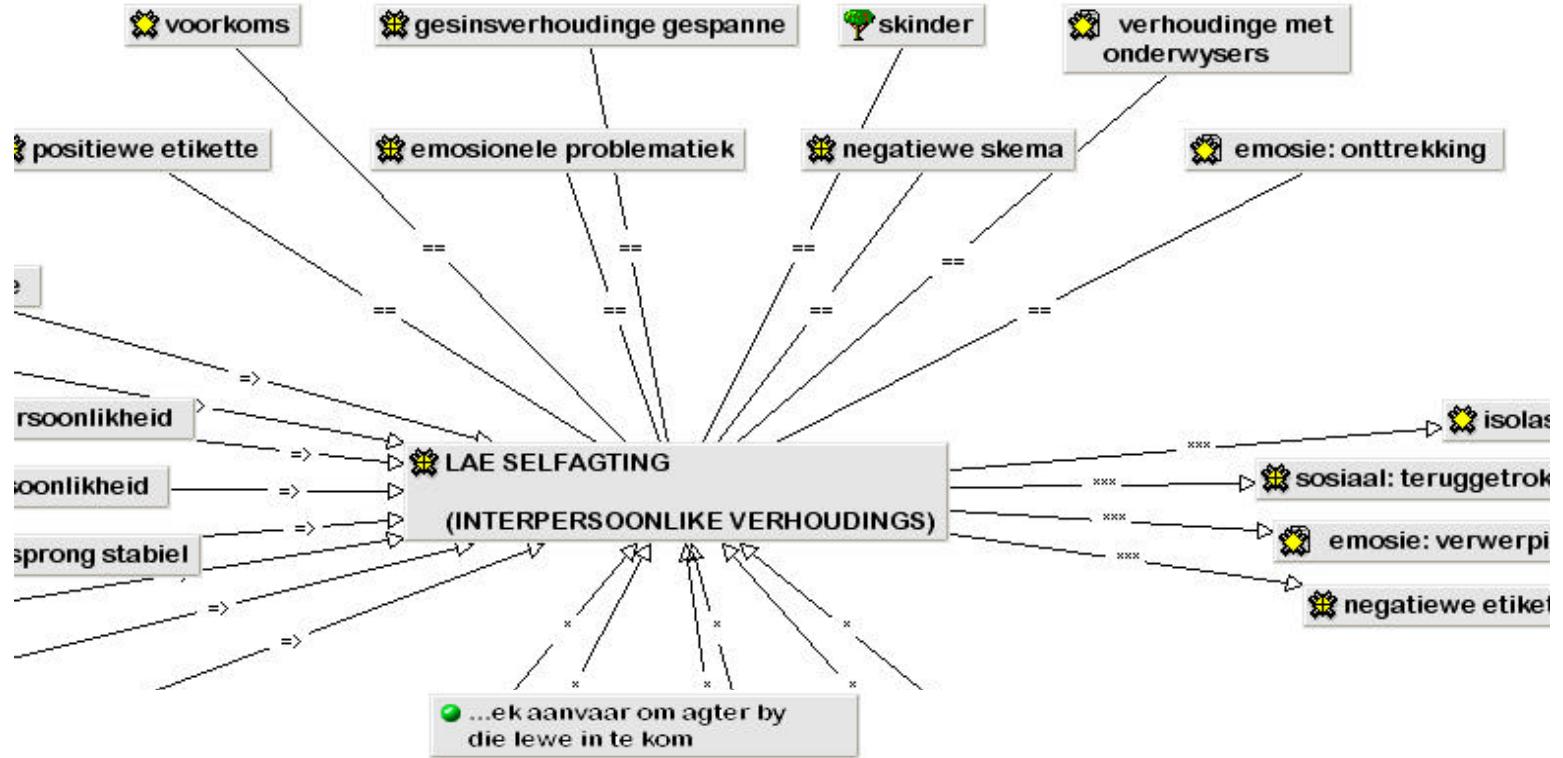

My derde oudste broer het weggekyk van die familie

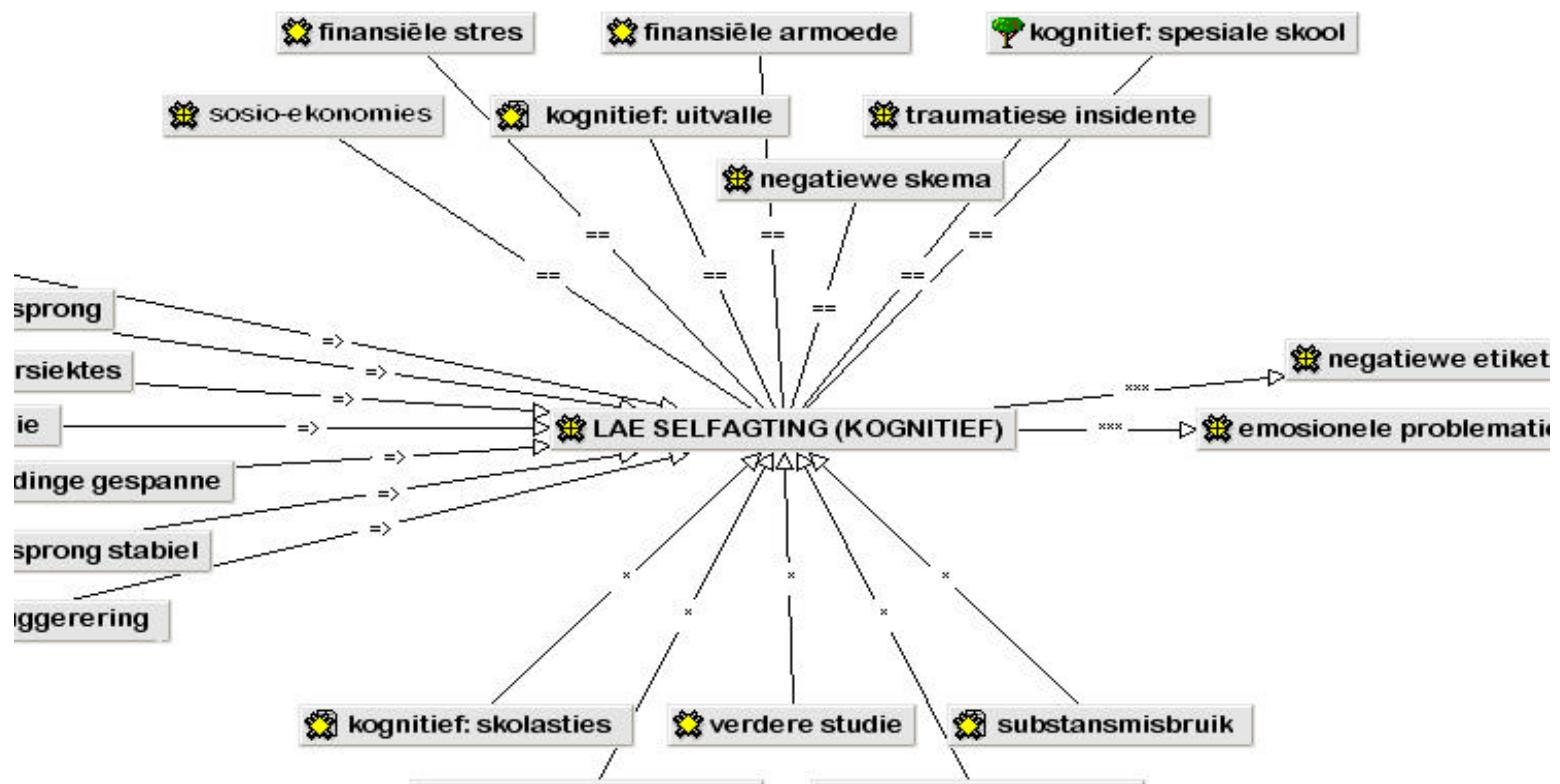

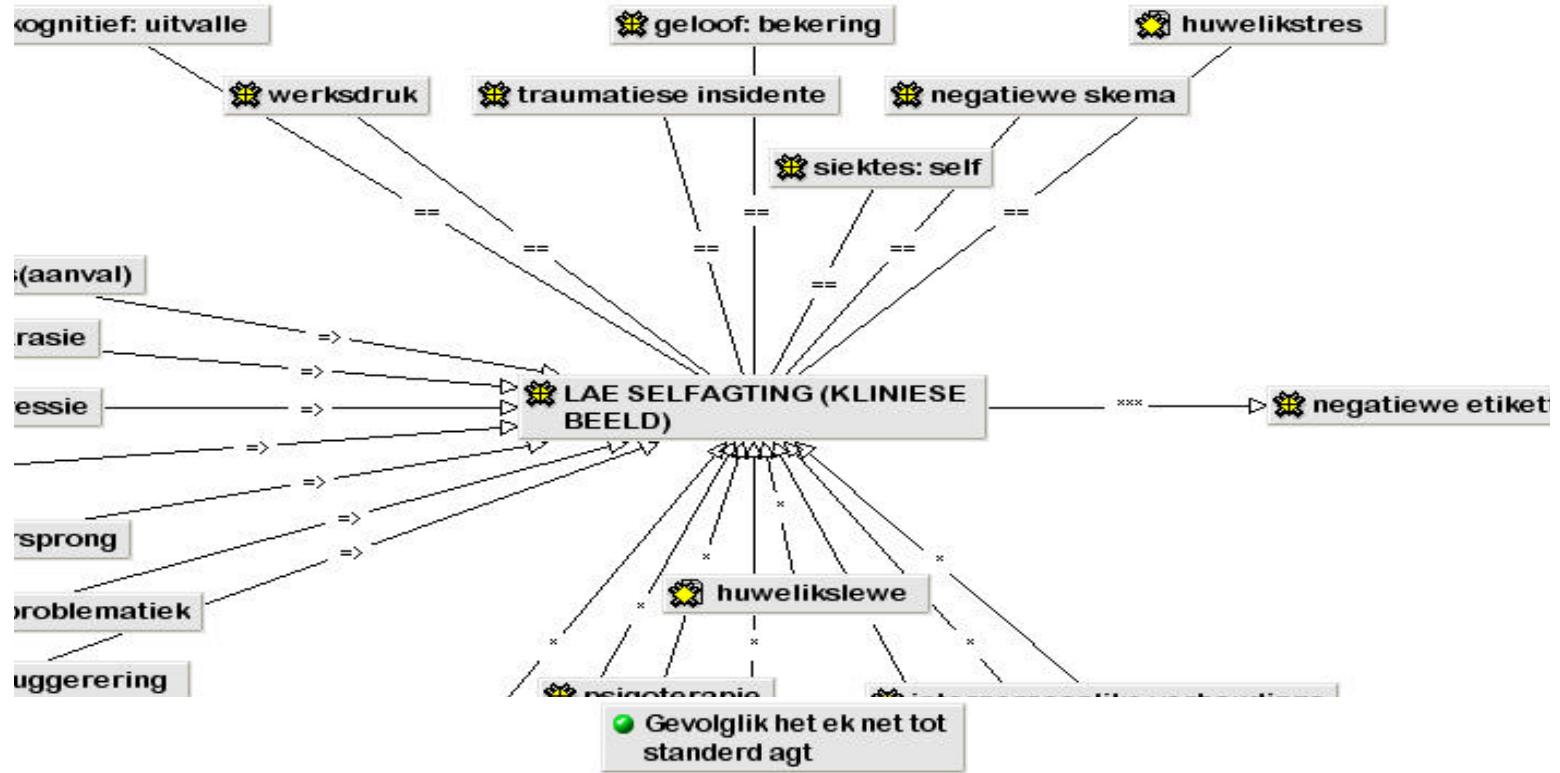

Ek rook twintig sigarette per dag

 Ek onttrek van die samelewing

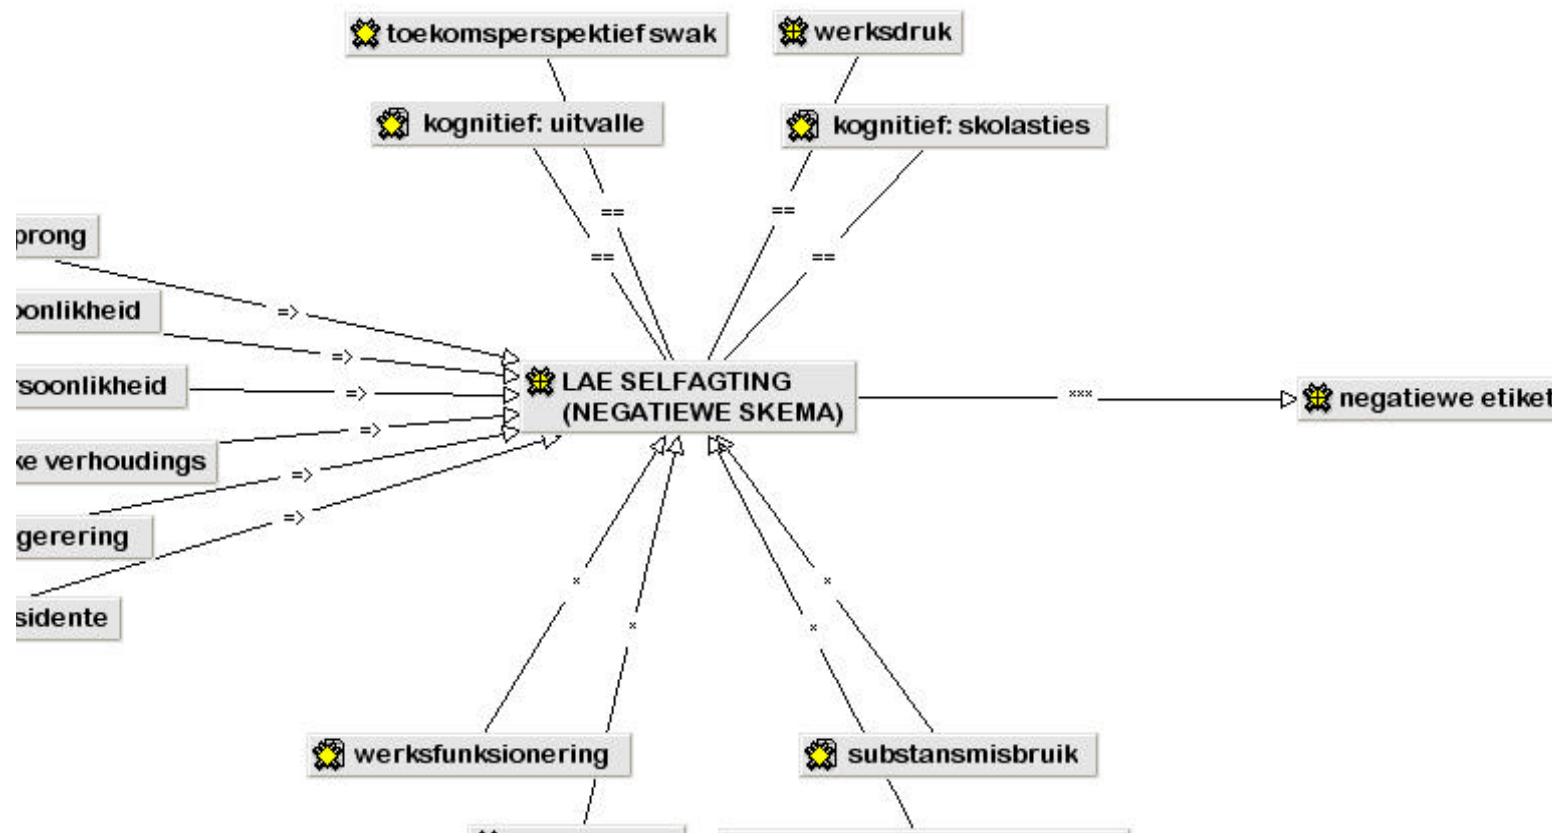

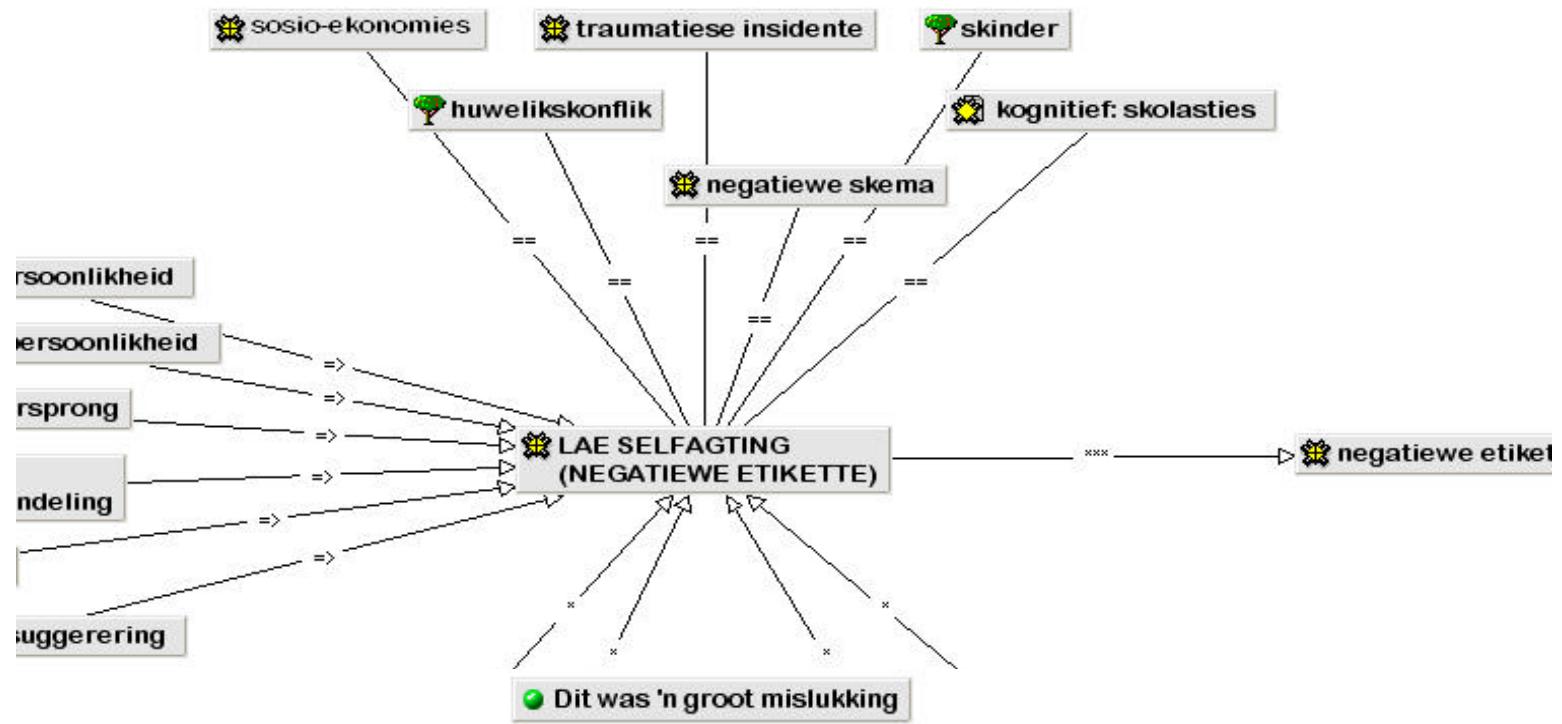

R kom onseker voor

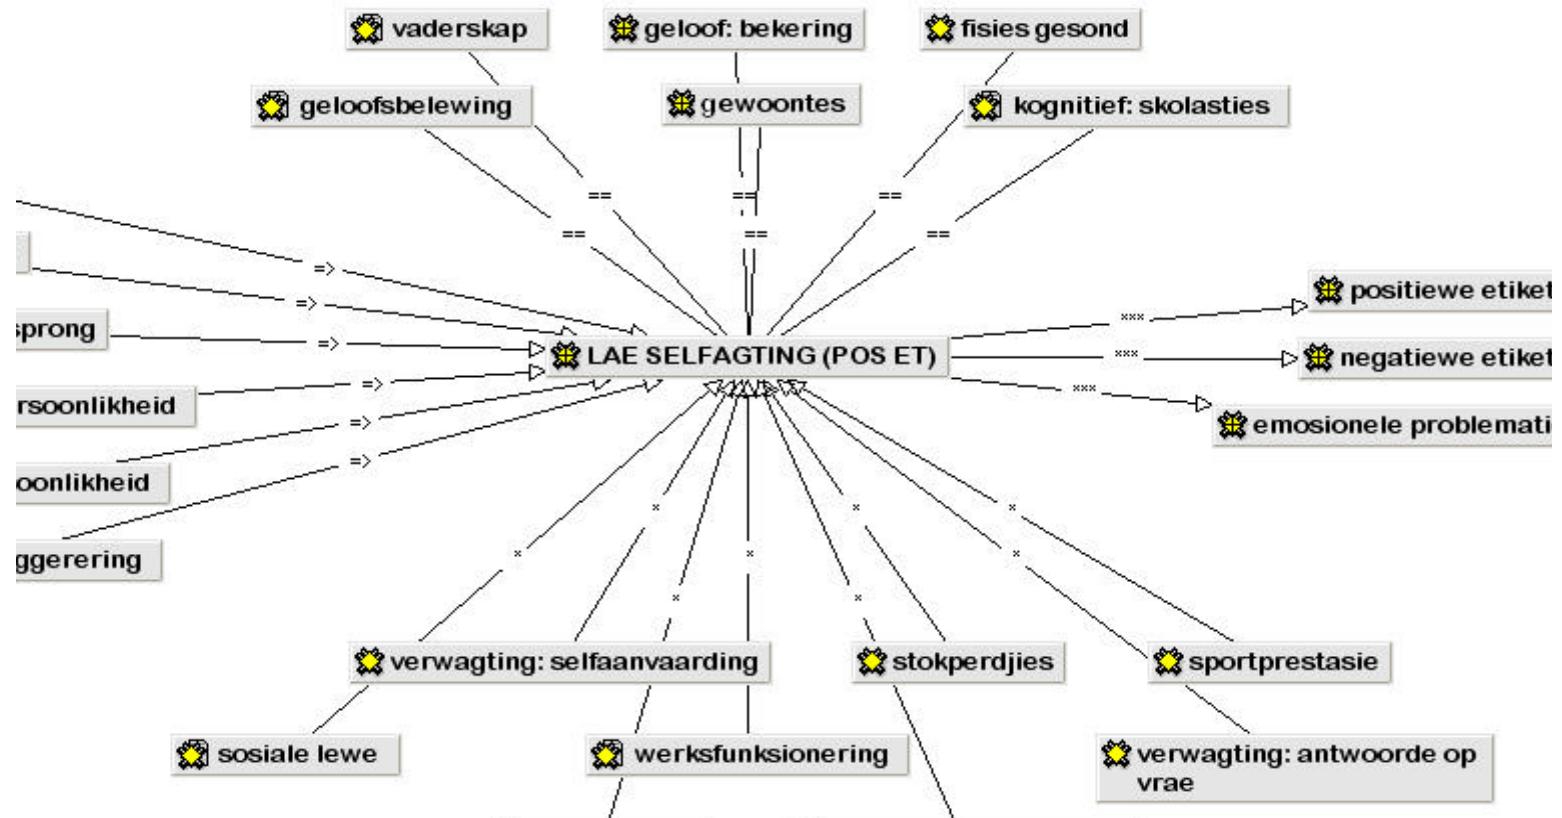

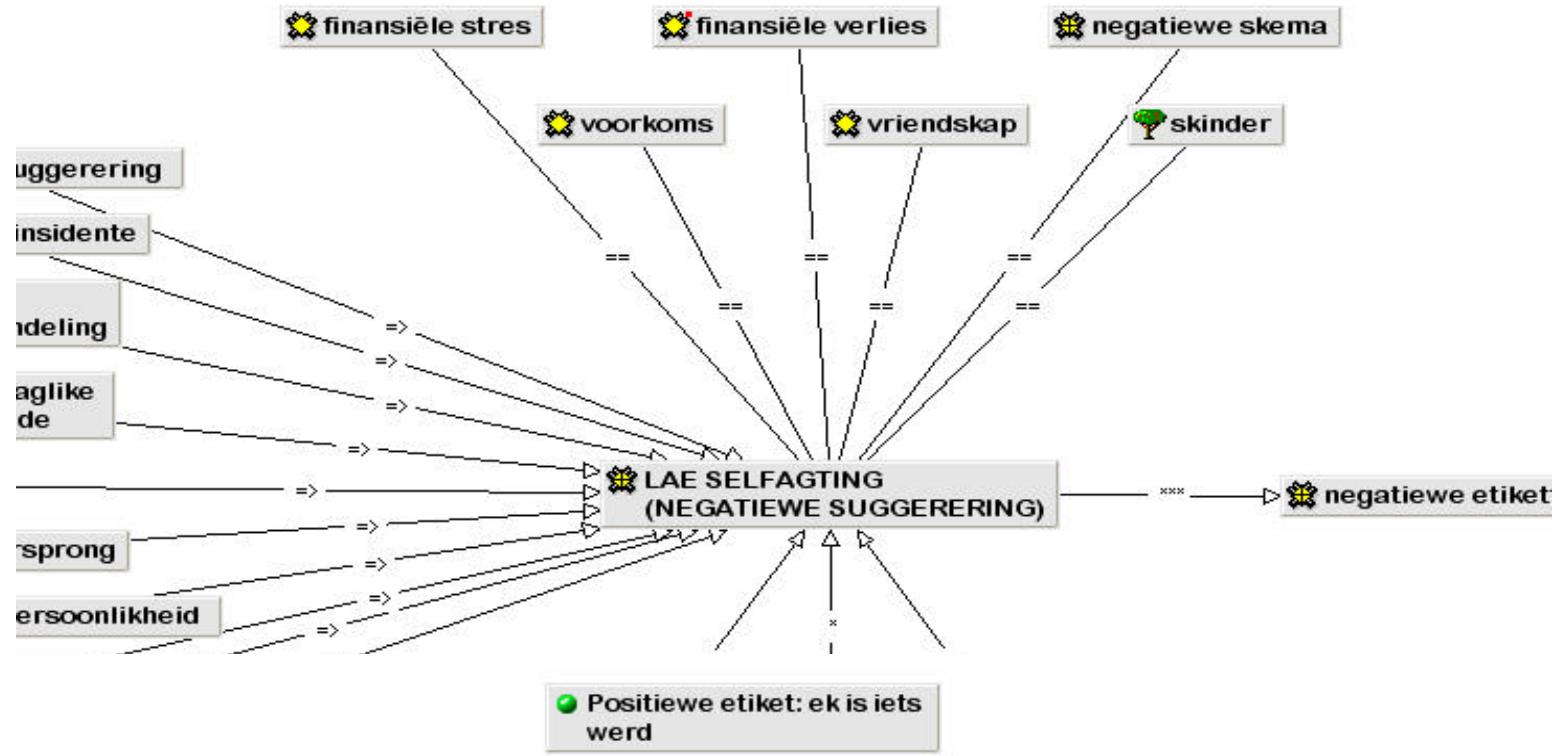

Ek ly aan minderwaardigheid

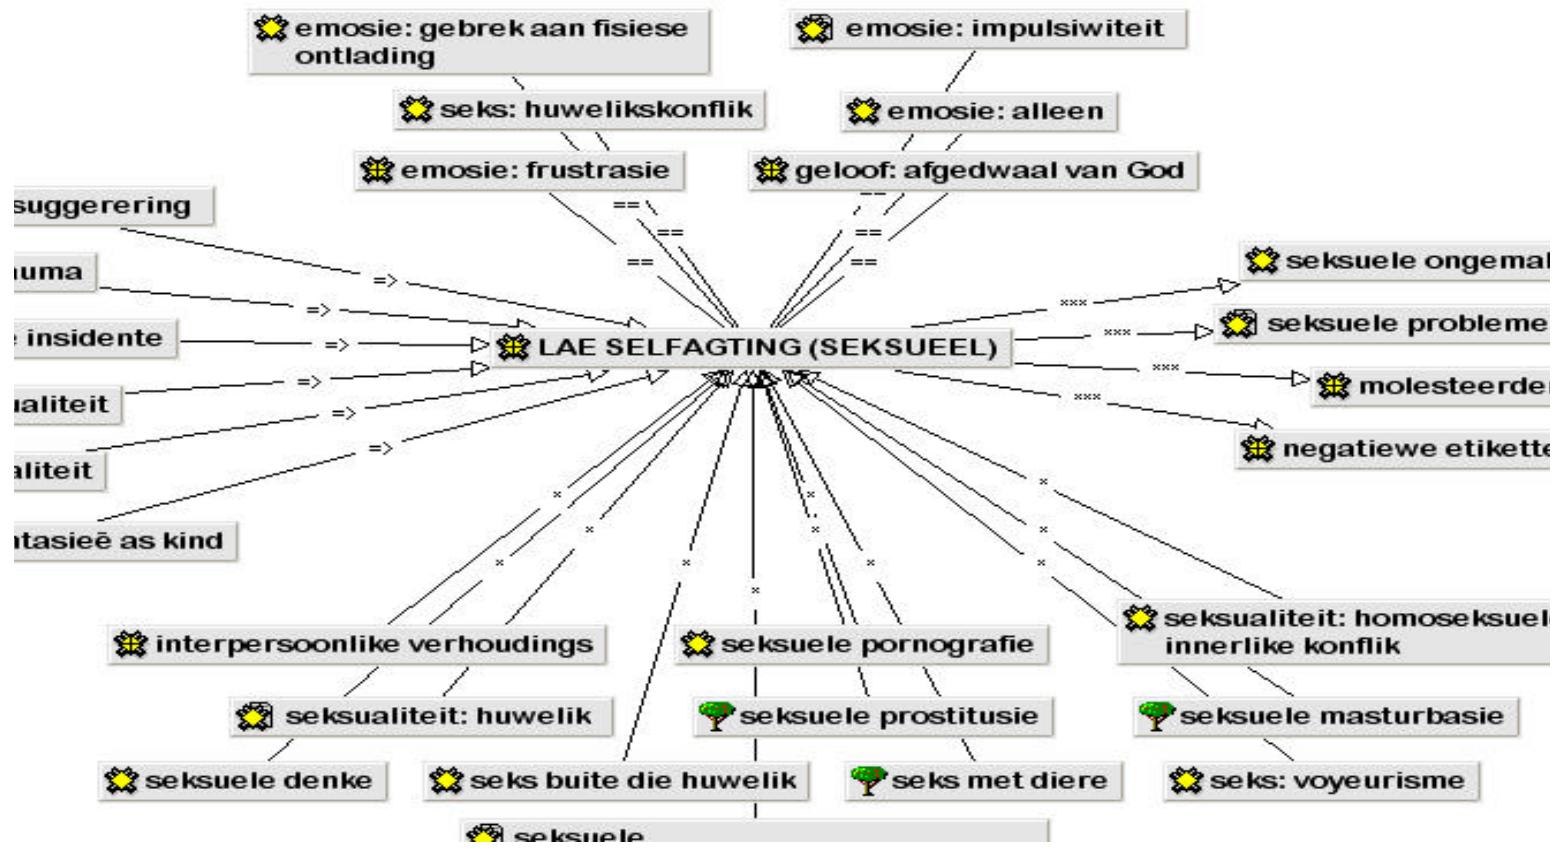

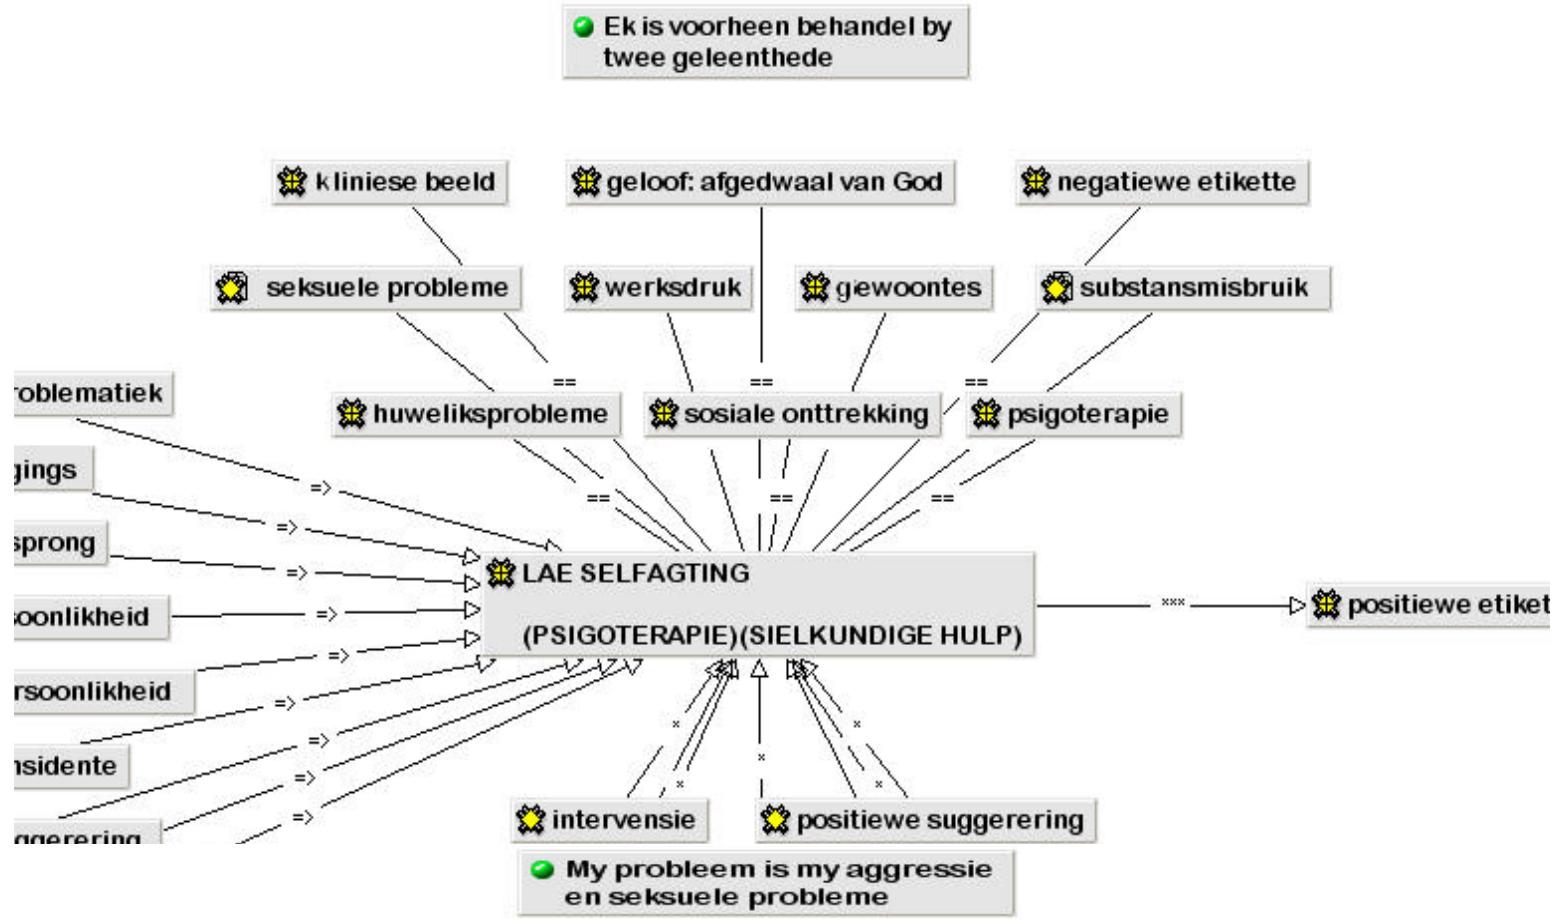

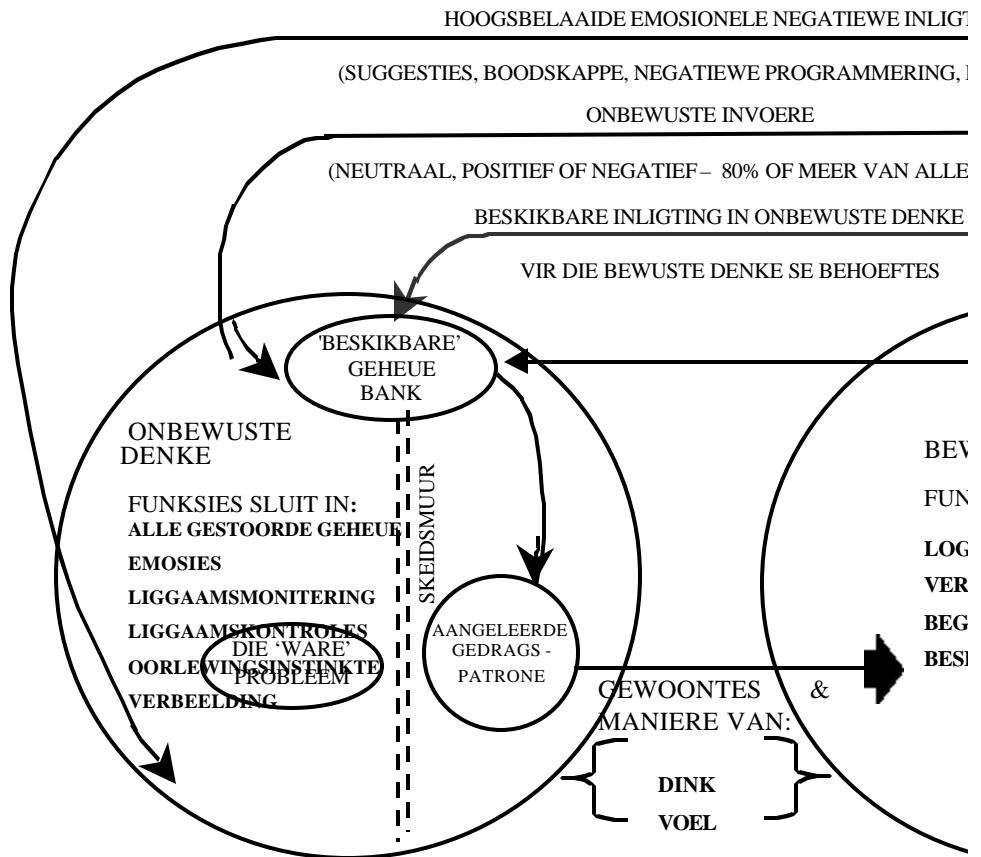

● Negatiewe etiket: afbreking met woerde

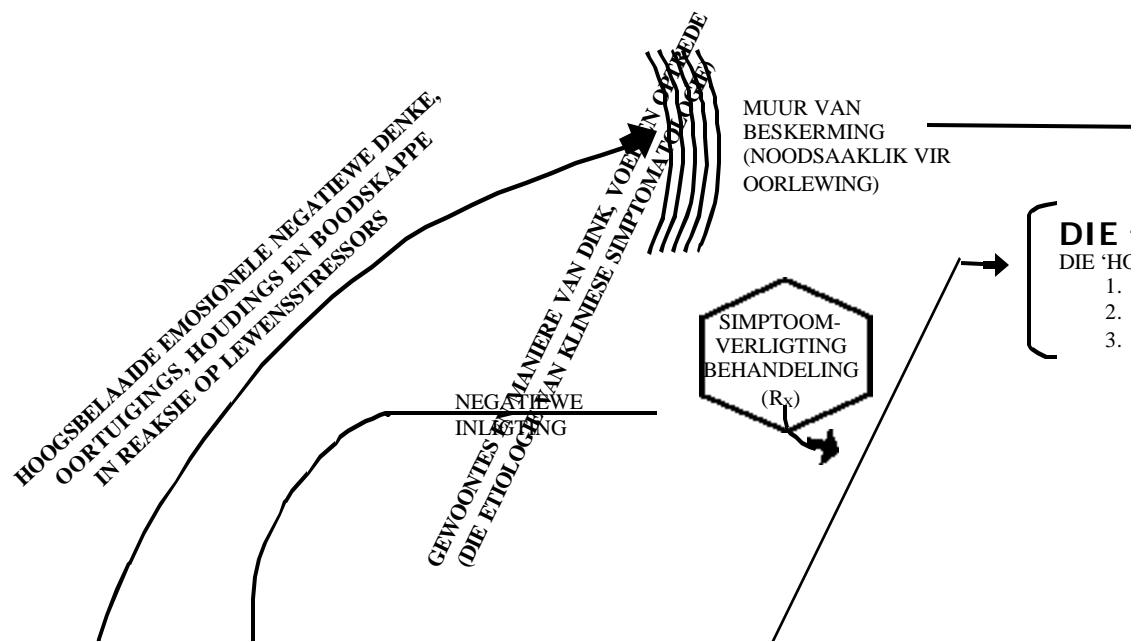

Hy het altyd voorspel dat ek 'n 'washout' sal word
