Results of Malfunctioning System

What is Millennium offline

Millennium Offline Circulation enables you to conduct basic circulation transaction including check out and check in of items when Millennium Circulation server is not functioning.

Millennium Offline Circulation Data

Offline Circulation files are by default stored on each PC in the following directory:

c:\Millennim\Offline

The Offline Circulation files stored in the c:\Millennim\Offline directory include the following:

File	Contents
pccirc.cfg	Preferences for the machine as specified in the Preferences dialog
pccl.eng	Default language file
circ.dat	Checkout, renewal, and checkin transactions saved on this machine and not yet uploaded and/or cleared
patron.dat	Patron registration information saved on this machine and not yet uploaded and/or cleared

For more detailed information on the technicalities of this millennium service please use the millennium manual, under millennium offline circulations > uploading transactions.

Date

PO BOX 392
0003 UNISA
SOUTH AFRICA

What are Offline Circulation Functions?

As highlighted it has only basic functions

- Check-Out
- Check - In
- Renew
- Patron Registration

People who benefit a immensely from the service are those working in the mobile (Bus) library, cause they perform the offline transactions and be able to synchronise once they reach the branch.
