<b>CONTENTS</b>	<b>i</b>
<b>LIST OF ABBREVIATIONS</b>	<b>iv</b>
<b>LIST OF FIGURES</b>	<b>v</b>
<b>LIST OF TABLES</b>	<b>vii</b>

### CHAPTER 1: INTRODUCTION

1.1	Background	1
1.1.1	Commodity price risk	9
1.1.2	Yield risk	10
1.1.3	Interest rate risk	14
1.1.4	Currency risk	16
1.2	Problem statement	18
1.3	Purpose of the research	18
1.4	Approach	18
1.5	Presentation structure of the study	19

### CHAPTER 2: DERIVATIVE INSTRUMENTS THAT MAY BE USED BY AGRICULTURAL CO-OPERATIVES TO HEDGE FINANCIAL RISKS

2.1	Introduction	20
2.2	Users of derivatives	21
2.2.1	Arbitrageurs	22
2.2.2	Speculators	22
2.2.3	Hedgers	22
2.3	Different derivatives	24
2.3.1	Forward and futures contracts	24
2.3.1.1	Trading of forward and futures contracts	26
2.3.1.1.1	Margins	27

2.3.1.2	Types of futures contracts	29
2.3.1.3	Pricing of forward and futures contracts	34
2.3.1.4	Application of forward and futures contracts in agricultural co-operatives	36
2.3.2	Options	37
2.3.2.1	Trading of options	38
2.3.2.2	Types of options	39
2.3.2.2.1	Call option	39
2.3.2.2.2	Put option	42
2.3.2.2.3	Option combinations	44
2.3.2.3	Pricing and valuing of options	53
2.3.2.3.1	Factors that affect option prices	54
2.3.2.4	Application of option contracts in agricultural co-operatives	57
2.3.3	Swaps	58
2.3.3.1	Types of swaps	59
2.3.3.1.1	Plain vanilla interest rate swap	60
2.3.3.1.2	Currency swap	62
2.3.3.1.3	Commodity swap	63
2.3.3.1.4	Other examples of swaps	64
2.3.3.2	Pricing and valuing of swaps	64
2.3.4	Forward rate agreements (FRAs)	65
2.3.4.1	Pricing and valuing of FRAs	66
2.3.4.2	Application of FRAs in agricultural co-operatives	66
2.4	Summary	67

### **CHAPTER 3: RESEARCH METHODOLOGY**

3.1	Introduction	68
3.1.1	Target population	68
3.2	Sampling methodology	68
3.3	Sampling design	69
3.3.1	Sampling methodology applied in this study	71

3.4	Research design	73
3.4.1	Surveys	73
3.4.2	Experiments	75
3.4.3	Secondary data	76
3.4.4	Observations	77
3.4.5	Research design for this study	77
3.5	Statistical analysis of findings	79
3.6	Summary	80

#### **CHAPTER 4: FINDINGS OF THE STUDY**

4.1	Introduction	81
4.2	The responses received from agricultural co-operatives	81
4.2.1	The responses received from different types of agricultural co-operatives	81
4.3	Statistical analysis and interpretation of the data obtained from the completed questionnaires	83
4.3.1	Interest rate risk	83
4.3.2	Counter party credit risk	89
4.3.3	Currency risk	92
4.3.4	Price risk	97
4.3.5	Yield risk	99
4.3.6	Concluding remarks	100
4.4	Summary	103

#### **CHAPTER 5: SUMMARY, CONCLUSIONS AND RECOMMENDATIONS**

5.1	Introduction	104
5.2	Summary and overview of the research	104
5.3	Conclusions	109
5.4	Limitations of the research	110
5.5	Recommendations for further research	110

**Annexure 1:** Cover letter**Annexure 2:** Questionnaire**LIST OF ABBREVIATIONS**

AMD	Agricultural Market Division
ATS	Automated Trading System
CBOT	Chicago Board of Trade
CME	Chicago Mercantile Exchange
ED	Eurodollar
FINEX	New York Cotton Exchange
FRA	Forward Rate Agreement
GCIS	Government Communication and Information System
GDP	Gross Domestic Product
ISDA	International Swap and Derivative Association
JIBAR	Johannesburg Interbank Agreed Rate
JSE	Johannesburg Securities Exchange
LAPC	Land and Agricultural Policy Centre
LIBOR	London Interbank Offer Rate
NACQ	Nominal Annual Compounded Quarterly
NCD	Negotiable Certificate of Deposit
NYMEX	New York Mercantile Exchange
OTC	Over the Counter
OTK	Oos Transvaalse Koöperasie (Eastern Transvaal Co-operative)
RMB	Rand Merchant Bank
ROA	Return on Assets
SAFCOM	Safex Clearing Company (Pty) Limited
SAFEX	South African Futures Exchange
SARB	South African Reserve Bank

USA	United States of America
WAN	Wide Area Network
WMAZ	White Maize

## LIST OF FIGURES

Figure 1.1	The one-channel marketing system for agricultural products in South Africa	3
Figure 1.2	South African commodity prices for maize, wheat and sunflower as quoted by SAFEX – October 1997 to December 2003	10
Figure 1.3	Area planted with maize, wheat and sunflower – 1994 to 2003	12
Figure 1.4	Estimated production in tons for maize, wheat and sunflower – 1994 to 2003	13
Figure 1.5	Yield per hectare for maize, wheat and sunflower – 1994 to 2003	14
Figure 1.6	Prime interest rates – January 1994 to December 2003	16
Figure 1.7	Currency: USD/ZAR - January 1994 to December 2003	17
Figure 2.1	The perfect hedge	23
Figure 2.2	The payoff diagram when buying a forward contract	25
Figure 2.3	The risk management structure of SAFEX	27
Figure 2.4	The average percentage white and yellow maize physically delivered from March 1997 to March 2003 on SAFEX	31
Figure 2.5	The total futures and option contracts traded – 1998 to 2003	32
Figure 2.6	Instruments on which options can be traded	39
Figure 2.7	Value for a call buyer of European call option at expiration	41
Figure 2.8	Value for a call seller of European call option at expiration	41
Figure 2.9	Value for a put buyer of European put option at expiration	43

Figure 2.10	Value for a put seller of European put option at expiration	43
Figure 2.11	Profit and loss at expiration for bull spread with calls	45
Figure 2.12	Profit and loss at expiration for bear spread with calls	47
Figure 2.13	Profit and loss at expiration for straddle with calls	48
Figure 2.14	Profit and loss at expiration for strangle with calls	50
Figure 2.15	Profit and loss at expiration for butterfly spread with calls	51
Figure 2.16	Profit and loss at expiration for butterfly spread with puts	52
Figure 2.17	The basic structure of an interest rate swap	61
Figure 2.18	Diagram of interest rate swap agreement	62
Figure 4.1	Sources of finance utilized by co-operatives	83
Figure 4.2	Average amount of borrowed funds utilised per type of co-operative	85
Figure 4.3	Average amount of borrowed funds utilised	86
Figure 4.4	Funds borrowed at fixed and floating interest rates	87
Figure 4.5	Average amount of borrowed funds of co-operatives that apply derivative instruments and those that do not	88
Figure 4.6	Instruments used to hedge interest rate risk	89
Figure 4.7	Types of credit/loans to members	90
Figure 4.8	Lending money at fixed or floating interest rates	91
Figure 4.9	Instruments used to hedge counter party credit risk	92
Figure 4.10	Number of importers per type of co-operative	93
Figure 4.11	Number of exporters per type of co-operative	94
Figure 4.12	Importers and exporters of products and/or commodities	94
Figure 4.13	Denomination of imports	95
Figure 4.14	Denomination of exports	96
Figure 4.15	Instruments used to hedge currency risk	97
Figure 4.16	Buying of commodities by co-operatives	98
Figure 4.17	Instruments used to hedge price risk	99
Figure 4.18	Instruments used to hedge yield/delivery risk	100
Figure 4.19	Summary of results	101
Figure 4.20	Number of individual derivative instruments used by co-operatives	102

### LIST OF TABLES

Table 1.1	Contribution of agriculture to the value added at basic prices	1
Table 1.2	Differences between co-operatives and companies	6
Table 2.1	Uses of futures contracts by hedgers	29
Table 2.2	Contract sizes of agricultural futures on the JSE	30
Table 2.3	Specifications for JIBAR futures contracts	33
Table 2.4	Specifications for currency futures contracts	33
Table 2.5	Payoff from a bull spread using call options	45
Table 2.6	Payoff from a bear spread using call options	46
Table 2.7	Payoff from a straddle using calls options	48
Table 2.8	Payoff from a strangle using call options	49
Table 2.9	Constructing a butterfly spread	51
Table 2.10	Conditions for puts and calls to meet moneyness conditions at any time	55
Table 2.11	Influences of variables on options prices	57
Table 3.1	Sampling population for the study	71
Table 4.1	Summary of responses received per type of co-operative	82
