Dear Zak,

I've been meaning to write to tell you how pleased Nell and I am about the verdict of the trial. The ghastly waste of it all - spending five years of human effort to prove what any informed person knew.

I liked your Optima article very much indeed. Congratulations.

There there is much talk of desertion in Government ranks but I'd want to see it to believe. We've had enough of that kind of deceptive talk in the past.

Congratulations, too, on the honorary degree from Rhodes. It's seldom known an honorary degree to be more worthily bestowed.

We've been seeing quite a bit of Monica recently and always enjoy doing so.

Nell joins me in warmest greetings to you and Inida.

Answered.

Leo
