Dear Uncle Zak,

Congratulations on your victory in the second round of the treason trials. Although it would appear that the victory is on a technicality, in my view it is bound to affirm the merits. It seems as if the Court felt bound to prove a conspiracy in order to secure a conviction and the legal battle so far shows that it is up against difficulties. However, you people are in the heat of battle and are therefore in a better position to appreciate what is really happening.

I have today posted the original of the statement to the Extension of University Education Bill to the Principal. I forward you a copy herewith for which you will observe that I have accepted your amendments for which I must thank you. I await with interest the Principal's comments.

Regards  
Yrs. sincerely  
W.M. Tsotsi
