

# WORLD COUNCIL OF CHURCHES - GENEVA E2.34

## MEMORANDUM

To: Dr Z. K. Matthews.  
Ref: Society for International  
Development, Washington.

From: Robert Menzies.  
Date: 10th August, 1966

Many thanks for your memorandum dated 2nd August, and for agreeing to act as a representative of SASP in relation to the Society for International Development, while you are in Washington. I attach some documents about the society which may be of interest, may I please have them back in due course.

William Clark recommended that we should seek membership of this organisation as he felt that its network of members could be of assistance to us when seeking consultants, and because he felt that meetings which it organises and the contents of its publications could assist our work. I do not envisage any regular commitment of your overloaded time in asking that you should represent us, but rather that you might be able to make occasional contacts so that we can best make use of our membership.

Encls. Letter from Rice,
