

Shell Co. of West Africa
Lagos. 23.6.59

Dear Dr. Matthews:

I am delighted to hear from you and to know that you are well and still fighting for equal rights of our people in South Africa. We in Nigeria feel very strongly about what is going on in South Africa. Every day our local papers carry headline news of the injustices meted out to Africans by the whites in South Africa. We know that this sort of things will not last very long and with the emergence of independent indigenous African States you can believe me your problems will be solved. So keep on the good work and if there is any way by which we can help please let me know.

Out here in Nigeria there is great need for teachers and I have no doubt if any of your students can get out here they will get some thing to do. I understand there are at least 4 South African teachers here.

Most of the Nigerian students you meet at New York are now back home. Dr. Ladi Oshipese is now Principal of City College, Lagos. Most of the students are in government service;

and they are in business firms or in their private business.
Most of them remember you very well.

I will like to keep in constant touch with
you and my organization in South Africa. We always
want to keep in close contact with events in
Africa.

Please give my regards to your wife and
children and I hope they are very well.

Greetings & Best wishes -

Yours truly
J. Ezenkwe
